

BELOVED GOD TABOR

You will be amazed when these “I AM” Music Temples come forth and are so beautiful and the Music so magnificent. When these blessed ones from the outer world, even for a few hours, are permitted to view that and hear It, they will go away changed. No one will ever be the same again who ever enters those Music Temples. They will leave as beings who will love the Light more than they did when they came.

These “I AM” Music Temples will be like Great Magnets, drawing into the Heart of the Light every Life Stream who looks toward them and listens to that Music, because they can never forget It once they hear It and It will sing within them whenever distress grows great! It will be like a voice in the forest calling them to the Pathway of Light. When the outer world’s burdens become severe, they will remember the Peace and the Joy in those “I AM” Music Temples of Light, and they will long to go back; and at the first opportunity they will go back, until they bow permanently within the Light.

Your opportunity is so great! It is Cosmic in its power and opportunity for service. Supposing it cost you ten million dollars to build this “I AM” Music Temple—what of it! To whom does the wealth of this world belong, anyway? Not to the beasts who have stolen it from mankind. There is wealth in the mountains of North America, particularly your United States of America, that none have ever contacted yet; and they won’t until they use it for the Service of the Light. But when that wealth lies there, provided by Life for this kind of thing you desire to do, do you think that those Great Beings are going to deny you the supply to do this which your Hearts desire?

My Beloved Frederick, It would not make any difference if it took a million dollars for each pipe in that pipe organ. What of it? So long as you brought it to Perfection and it was offered to the Service of the Light, and it was pouring forth over this mountain range to bless this Land, what of it? Who is there to say you shall not have it? Feel absolute Freedom! Call for the Limitless Cosmic Wealth to be used to fulfill the Divine Plan of the “I AM” Music Temples of Light in Beloved Saint Germain’s Service for the Freedom of America and the Victory of the Light for mankind. Stand with your Decree! Keep your Harmony! Purify yourselves! Call forth Cosmic Protection with it, and you shall have it in ways that are like Miracles and Magic to the outer world.
