

· SAINT GERMAIN'S TALK ·

San Francisco Class—February 5, 1938

BELOVED Students, in Our endeavor to convey to you the importance of the need of harmony and protection for yourselves, for the city and for America; I am going to reveal to you some of My Activities within the week. The Messengers know that I have been absent a great deal. Well there was a very great reason for it.

I told you the other day that a certain destructive thing had been destroyed. I may not tell you the location of this of which I am going to speak; but a concentrated action was attempted in the orient and in Europe to band together certain aerial forces to bring destruction to our America. Five times, I intercepted their messengers. In the case of the last one, I was compelled to turn back upon him his own viciousness, which destroyed his physical body, in order to stop it from reaching its destination. Then, I sent back a message to them and the originators, who are very vicious and wholly within the claws of the sinister force. I said: "If you attempt further destructive activity of that kind and you start those planes for America, I will destroy everyone and the people that are in them! If you think that you are going to produce wholesale slaughter, in a country where I have found obedience and for which I have worked for two hundred years, then if necessary, I will destroy your whole army! and if you think I cannot do it, try it out"!

Beloved people, in the joy and happiness—shall I say of your tranquil world here—do not be deceived! The destructive forces are waiting, like

a leopard on a limb of a tree for its victim to pass under. They promised Me they would make no further attempt of that kind, and I talked with their emissary! Dear people, do you not see the need of the greatest possible harmony, from every human being in America?

The most wonderful accomplishment has been attained in this class. Yet the claws of the sinister force came so near to driving in again. How strange it is, when I have asked obedience of individuals and they ignore it; but I suppose We must be patient. That is why I say beloved ones: I never can quite tell what the human of individuals is going to do, you see! Therefore, I have to so carefully find out whom I can depend on. When I have found so many loyal ones in America, Oh can you imagine My Gratitude and rejoicing? Do you think it is for Myself? It is for you, beloved ones. We are free! Why cannot mankind understand that when We ask something, it is for your blessing and protection. It is not for Ours or from any wish to have you give obedience to Us. It is your Law of Life of which We are talking.

Therefore, beloved ones, I take advantage of calling your attention to it again; for We do not wish to take it up to-morrow. Oh, remember your responsibility to Life! your responsibility to maintain harmony! for Perfection and blessing to come forth. When so much has been achieved in this class, Oh I plead with you, go on, and on, and on in that great harmony which lets your Light expand, expand and expand until you are wholly free.

There are quite a number in this room who, with complete harmony maintained, would make their Ascension in this embodiment. Dear ones,

there is not a thing in the outer world which matters at all, in comparison to this obedience to your Life; for without it, you probably will not even be here nor have any place to be.

Beloved ones, We do not talk to hear Ourselves. Neither do We talk to frighten anyone; but We tell the truth as We always have. Through every civilization that has ever been, We and all the Ascended Masters have always told the Truth to the people. This time, We are having greater response than in the hundreds of civilizations that have gone out of existence. In many civilizations, which the people have been warned and prompted, only a hand-full, so to speak, in comparison with the great number of civilizations, gave any response. This time, We have the response of these wondrous precious people all over America who have believed what We have said. Through the power of their Presence and the issuing of these Mighty Decrees, We CAN govern any condition that exists, just as We have done to-day.

Perhaps, you will think We are getting very mathematical; but one and one-half of the three remaining percent needed for the protection of America, has been accomplished. Why are We keeping such close watch of these activities? Because of the vital necessity! I want to give you every word of encouragement possible; and I do thank you with all My Heart, for the magnificent service rendered in this class. I shall never forget it or cease to thank you! Let us go on, and on, and on; in greater and more powerful Radiation in every class.

Will every "I AM" Student in America stand guard and, if necessary, give their protection to the Messengers and This Work; against all un-

fortunate individuals who try to spread discordant newspaper reports? We shall reverse the intent of everything! Out of every discordant thing, shall come only more Light; for We shall turn it into a miracle of Perfection, to bring more people to the Light. If you will stand with the Messengers in their fearlessness, against all discordant reports, such reports will soon cease to be. Then the newspapers will see they cannot affect them.

This request is not anything against the newspapers; but is against destructive individuals who are claws of the sinister force in the employ of newspapers; for it is they who have been touched by these silly false reports. I tell you dear ones, you are becoming a power in the world! Do not forget it! The people and the destructive forces are seeing that these Decrees act! that they operate with definite power and precision! and they will grow more powerful every day! So shall they, for your individual blessing.

Certain conditions, which I may not describe, have been attained in this class where We can do tremendously more for the individuals within it. So please accept this Help.

I say to you in such great Love and kindness, that had I not been able to check this attempt which I have mentioned, there would have been no Shrine Class in July; because there would not have been any place to have it. That is why I say to Los Angeles and its blessed people, and to the great number of students there: "Call and stand guard over your city, for the whole world knows that there is the largest Group of Students in America." You, who are there, can give it pro-

tection and have been doing so. Now, We shall release more Power into your individual Decrees and your Group Decrees, than you have ever had before.

I think now, however, I shall watch it! for I have been promised that no further attempts of this kind will be made; but those individuals can never be trusted, so long as they are claws of the sinister destructive force.

Therefore, I want you to know, beloved ones, how much We love you and how the Great Host of Ascended Masters are holding guard as never in the world before. I say this for your strength and encouragement: "You are never left alone." Every earnest "I AM" Student, who has entered this Stream of Life, even in his minutest human problems is never left alone. Dear precious people, again I say: "This is no idle fancy." It is a Mighty Activity of the Great Activity of Life. Feel It, abide in It and have Its Glory and Freedom. I thank you.

· DECREE ·

"Mighty I AM Presence"! I demand Divine Judgment descend upon every person, place, condition and thing in this situation! release all within it from all human creation and consciousness! COMPEL Divine Justice to come forth this instant and Gigantic Ascended Master Miracles of Freedom, Perfection and Happiness to be the only thing that can possibly come out of it to me and all concerned! I thank You for this Victory NOW! eternally sustained.
