

• ARCHANGEL MICHAEL'S DISCOURSE •

• *Denver Class—March 19, 1939* •

CHILDREN of the Light and friends of America, friends of the world! We, as three Messengers, the Goddess of Liberty, the Goddess of Light and Myself, have just returned from the Great Central Sun, the Source from which all Authority to this system of planets comes. The Dispensation has been given, but the direction to give It to the earth has not yet come forth. However, We will proceed with Its Activity just the same. You will notice, sometimes, that We have called your attention to a thing for a definite purpose. Again We withhold it, until such time as Wisdom directs it is wise to be given.

Beloved students rejoice with Me that I shall move twenty-three hours out of the twenty-four in the atmosphere of earth for the next sixty days. With My Sword of Blue Flame, I will visit in person destructive places; and we shall see whether mankind continues to impose their destructive intent upon each other. This is the part of the Dispensation which I may explain to you.

The call of earth, the call of her people, is reaching sufficient volume wherein these Almighty Powers are to be released. Humanity, who in and through false pretense try to release destructive forces, will see that it is a mistake. The earth has been left for so long a time to the destructive impulses of mankind that to-day, it must cease! Do not misinterpret Me! I say: "To-day, starts into action the *beginning* of that Dispensation which will cause it to cease from the earth."

As I led Joan of Arc forth to the Freedom of France and France with our blessed ones came to the assistance of America, at the time of her most urgent requirements; REMEMBER that I still serve the people of earth! REMEMBER the Powers of Light have not forgotten the children of earth; even though they have created distress through long centuries of mistakes, still do We love humanity. Still do We refuse to see or accept their mistakes! When they are ready to make the call to Life, then in the Powers of the Light which We wield, shall We amplify their humblest efforts in their call for Freedom and in their call for supply. Only because mankind have forgotten so long the Presence of Life, do they not have, by the Power of Radiation, all supply of everything to-day.

Since the condition exists and since there is no cause that does not have an effect; since if We change the cause, We can change the effect; to-day, we SHALL CHANGE the cause of all destructive conditions. The Power of Light shall be the *Only Cause* within the action of mankind, and therefore the result *will be Perfection!* The result will be the longed for fulfilment of the long pent up desires within the hearts of mankind. Think of that hope, beloved ones of the Light, which has been so long deferred; that hope of the Perfection; that hope of the happiness; that hope of Freedom which every heart knows belongs to it; but because of mankind's disobedience to Life, they have shut it away from their experience.

You *can* restore *all* of this! There is not one of you who cannot. To-day, there is such Assistance being given as has never been released before in the history of the earth. Why not take advantage

of It, children of earth? Why not put aside doubts and fears and enter into the Glory of the Light which is actually beating your hearts? You never knew that before! You know well enough you never knew that the Light of God—the Light of Eternity was beating your heart, until Saint Germain brought forth this Mighty Instruction of the “I AM.”

You have known many angles of the Truth, but they were only partial. Now, He has brought to you the completeness of Truth, the Ascended Masters’ Understanding of the “Mighty I AM,” the Highest Power in the Universe! It is the only place from which Eternal Freedom can come—the only place from which limitless Eternal Supply can come! When all mankind know that all supply comes from the One Great Source of the “Mighty I AM,” all selfishness will cease to be because there will be no desire to deceive each other. All people will *know* that they cannot deceive each other. Then, they will give credit to the Source from which all good comes! Then, all will be at peace. All will bless each other and all will *call* for the blessing of each other, instead of pouring out condemnation for mistakes which all are making. Why do not those who criticize and condemn see their own mistakes? Because of the intellect. Their consciousness is clouded by human concepts, by human suggestions, by the discordant conditions that exist, thrown off from the feeling world of mankind.

To-day, all stand in the Magnificent Presence, Power and Opportunity of Life—the greatest ever known upon this earth. I say to you, beloved ones, improve your opportunity in your Service to the Light! You will never find another oppor-

tunity just the same; for when this condition is dissolved for mankind and they enter into the Golden Age, which will bring such Peace and Perfection, Oh, how quick will all that has accumulated throughout the ages be forgotten! Remember! this means not only your call and the release of yourselves from your own individual accumulation, but it means that of ALL mankind. The accumulation of the discord of the ages must be dissolved by the Cosmic Light for the discord is held within the atmosphere close to the earth by the Cosmic Light which is surrounding this entire planet. That means a complete cleansing and purifying within, about and in the atmosphere of the entire belt of Cosmic Energy which envelopes this earth.

See for a moment, why the human discordant conditions of earth do not go beyond this belt of the Cosmic Light, which is the Surrounding Element that prevents it going out and reaching other planets. The earth is the densest planet of this system and it must have purification. It must attain and hold its balance with the rest of the planets of this system.

Do you wonder that with your Beloved Saint Germain I too have watched and watched and watched this beloved one, your Lotus, whom I took in charge to save France? Again, I stand her Guardian to bring Freedom to America! (applause—audience rising)

Beloved ones, many of you have served in great capacity throughout the various ages and, when enough of the imperfection and impurity of the atmosphere of earth is dissolved and consumed, Saint Germain, Myself or others, perhaps your Great Victory, will take such an audience as this

and draw the Cosmic Screen upon which you may see the Truth of the ages without a single atom of physical substance. You may be assured that mankind is bound to come into the Truth of Life. Then, will you see how great this Truth has been, is and will remain forever.

Therefore, be at peace. Rest at ease in your Almighty Application, until such time as the Wisdom of the Great Ones sees fit to bring further activity which will give you the assurance of all that you have been, if you care to look upon it. You will also see the future activities of America. You will see the Glory of the Radiance from Venus, and receive Her Visitors as you receive your friends. When the earth is perfected enough, Venus will be in constant communication and her people will exchange visits with you, make no mistake about it!

Mankind have lived so long in the unbelief, in the lack of understanding of the Light and Powers which surround them because they have been enmeshed so strongly and deeply within the discord of human creation. That is rapidly being cleansed and purified through your calls to the Cosmic Light. It is assisting in freeing the atmosphere of earth as We pour out the Power of Our Light Rays together with all you, the great body of students, who are rendering this daily service. Why do you think I am determined to render this Service for sixty days? Because a Great, Almighty Cleansing Activity is beginning again this day in the atmosphere of earth.

I say to you, beloved ones, when the Messengers return to Los Angeles, you will have seen some mighty transformations. Mankind is calling for Light, is calling for protection. Why do you

think the Messenger has many times recently called your attention to the Counsel for the Defense? Because there IS that Counsel of Defense for America and for the world which is only now beginning to assert Its Dominion! Therefore, all mankind must bow before that decision!

Think, dear ones, of the many people throughout the earth who have had bitter antagonism toward the Catholics, and true there have been many mistakes in their activity. Yet those people have always remembered Me and have always given Me recognition. Do you who have disliked the Catholics, know that one reason why I am still assisting the earth is because the Catholics HAVE remembered Me? Forget my dear people denominations! Seek the Truth of Life and pour out blessings to all mankind.

True, if destructive forces through individuals are in action, you must call for them to cease, that they may not endanger mankind—but that does not need to be through condemnation and hatred. You cannot accomplish permanent results where hatred exists within the feelings of individuals; but to know that a thing must cease by a great calm kindness in the call to the Powers of Light, will render the service and bring no reaction to you.

This Mighty Radiance is releasing here and spreading throughout America. Denver will you rejoice to-day, that you stand as upon a mountain top where this Radiance may pour to the rest of the earth? Some of you would say to Me: "Do you not notice the conditions that exist in our city"? Of course I notice, but I know that *those* conditions have no power to remain! You *should* know the same! Your officials, your conditions political

and otherwise would have no power, if you as the people of Denver would know it too and call for Ascended Master Friends to be placed in all official places. Then, your call would be answered by the Power of Light and you would know that human conditions have no power in your city.

To-day, I have planted My Sword of Blue Flame in this city, to draw into It the impurity, the imperfection and, if you will continue to make your calls, who of you shall say to Me how soon a great change shall take place. In your altitude here, you should have the greatest blessings. You should have less to contend with than great cities in the lower altitudes. Therefore, in bringing the Messengers to you at this time, little did any one of you dream of the results out-picturing in the future.

As the Power of the Unfed Flame begins Its Mighty Action and comes into visibility at three points in your America, the whole world will take notice! and realize that the Messengers called their attention to It, for the Power of Light is taking Its Dominion in the earth and all shall witness Its Dominion.

As the Messenger has called your attention to civilizations in which the Power of the Unfed Flame was the Ruling Presence and Power—where no armies nor navies were required—so shall your America once again stand in Freedom and Dominion, in which she by the Power of her Light will be the defense. No army nor navy will be required and there will be no penal institutions, no institutions of incarceration and insanity shall cease from this earth because all incarnate entities will have ceased to remain here. As this incoming Light takes Its Dominion, no

such thing as circumstantial evidence will be tolerated, every one will know the Truth.

Ladies and gentlemen, in your business activities of the outer world, call three times a day, morning, noon and night, for Divine Justice and Divine Order to take command of you and your business; and see that honesty, integrity and Perfection are the only manifesting Intelligence in your business and you cannot take care of your business. The world must go on yet a little time in changing and transforming these activities of the business and industrial world.

Do you think We fail to see that which is required and which must come forth? How can It come forth, if It does not come from Us, who know the requirements of the government and who know the requirements of industry, in their simplifying, perfecting activity? Mankind will not let these better things come forth, because of the great investment of money. Certain individuals withhold from mankind the greater Perfection and simplicity which is waiting to-day to come into your use. For thirty years, magnificent inventions have been withheld which would bring such transformation and blessing to mankind but those who have great money investments will not permit it as long as they can help it. Soon they cannot help it. If they but knew it, they could not be deprived of anything in the re-adjustment, in the Greater Glory and Simplicity which comes forth to mankind for remember, the more you live in the Great Almighty Truth of Life, the more simplified It becomes in your world of industry and in every activity.

Think of the hours spent in preparing your food, in the cleansing of your homes and keeping

them in order, when it is easy to call forth a Light Ray and cleanse your home in a few minutes.

Saint Germain has long been an authority upon this Mighty activity. So has your Beloved Jesus, the Mighty Divine Director, the Mighty Victory and the Goddess of Light. The Goddess of Liberty has for ages been almost wholly within governmental activity. That is why you have Friends, my dear ones, transcendent beyond words and, if you could fully realize what They mean, you would not once again know a single discord because when having called to your "I AM Presence," you would call to Them, and having been shown and had described to you the means by which They give Assistance to your Life Stream, you would see so clearly, even in your mental picture, Its Perfect Action and intensify It for your blessing.

Therefore, to-day, in the Glory of all the Light which is yours, you do not quite understand how great that Light is even now. Changes are steadily and surely taking place within you. Think how wonderful all is. You will pardon Me for allowing you to stand like this, but I tell you dear ones, not to-day, but one day I shall tell you every detail of what has taken place, while you are standing and listening to Me. Won't you be seated?

Do you quite realize, my beloved ones, that in all Life everywhere, mankind has stood in salutation to the Greater Powers? Mankind never sits in salutation, you perhaps have noticed. (applause) It is rather delicate just what I am going to say, but you who have seen the response which comes alone from within the heart of the audiences of the Messengers; when spontaneously every one leaps to his feet, do you understand that It is not a human element? Do you understand It is a re-

sponse of the Light within your hearts, to meet the Light which has come and to receive Its blessing?

I do not mean that the audience should jump up every few minutes, that is not the idea; but when a great impulse sweeps the audience and they rise to their feet as one, it is the acceptance by the Light, in each one in the audience, of that Light which has descended to bless them—a magnificent thing.

Another activity, beloved ones, which has not been known on earth is the response of the people to the Messengers. No one has ever known such response as that given to them; but your Love for the Messengers is the Power of Light acting within you in response to the Light which has come to render you Its Blessing.

I say to our beloved Lotus, be at rest, beloved one. Many of your heart's desires will still find glorious expression. Remember My Words! You, Oh beloved ones of the Light, whose hearts have ached to render a service which you have so many times felt surging within you, remember! call to the Power of Light to pour Its Radiance to you in your Perfect Avenue of service. Then, in your present activity await the impelling, directing Power of your Great Presence of Life, the "Mighty I AM," to place you in Its greater Perfection, and do not jump at conclusions.

This day, you stand in the Glory of Eternity. This day will never be forgotten by the Power of the Light which *is* anchored here in your city; for the release which will come to every one of you. Therefore, use your Power of acceptance now! Use your power of qualification without limit to not only accept, but to charge into action all these Mighty Qualities and Powers of Light that have

been released for your blessing and which are enfolding you and will continue to enfold you indefinitely.

Therefore, in the Glory of that Great Light which beats your heart, do not forget It for an hour. Try to remember once an hour for an instant, to give praise for the Light that beats your heart and to give obedience to It.

I rejoice with you for your great acceptance of the Light and for the firm determination which has grown within you to stand in the Light and call to yourself your own. It will be still greater than you have ever known. That Light which is your accumulation of good for four and a half million years, awaits the cleansing, purifying Activity, until It says: "Now We are ready to come to your assistance, to your rescue! Behold Our Mighty Descent!"

Try to feel with Me for a moment what it means to suddenly become aware, that not only have you made great and many mistakes through the centuries; but at the same time in each embodiment, there was some more or less accumulation of good. That Good stands forever waiting your home coming, awaiting your return. So many throughout America to-day, and some in foreign lands, by their very great intensity and attention to the "Mighty I AM Presence" are almost ready for Its Release.

I say to you, for it seems so great a requirement throughout the student body to-day, my dear ones, if you would stand in salutation to the Presence of all Life and the Great Host of Light with great calm firm determination and say: "Mighty I AM Presence" and Great Ones of Light! put me in my own Perfect Avenue of Service and see that I am abundantly supplied there. Hold me within

Thy Activity, until Thy Light has prepared the way. Then, see that I step into It through the natural process.” In doing this, you could have your heart’s desire, for that call to Light knows no opposite, if you could remove from your feeling world, all questionings as to Its Immediate Action. You can have removed from your feeling world all doubts and questionings. When you find your intellect or your human feelings questioning the application of this Law, stop for an instant and silence it.

I wish to say one thing concerning those who are disturbed by discarnate entities: no living person in human form need fear discarnate entities, if they will only stand, assert their dominion and ask the Powers of Light, Myself or the Great Astrea, to encircle them in that Light and cut them free forever from such conditions. Then have the calm, firm determination it was done. They would not be troubled one hour longer. Through momentum, even after the entities have been removed, those in physical Life sometimes feel the effect and think they are still there, which is self-hypnosis. Do you understand you can hypnotize yourself by belief or feeling the same as another individual would hypnotize you? Mankind have done that throughout the centuries but today every one of mankind who wants to be, is being cut free from that condition.

Oh the pity, the great pity of human sympathy, self-pity and such conditions which drag mankind down! You cannot afford to have self-pity. If you have made mistakes, and who has not, then you yourself acknowledge it to your Presence of Life. Do not try to justify yourself in your mistakes or you will never correct them!

The Messengers have been so kind, so patient in

helping the student body everywhere to correct discordant conditions. People should bless them forever, instead of sometimes feeling critical. You cannot afford to allow yourself to have human sympathy, self-pity or justify your mistakes. You cannot afford to do it. Self-justification will make it impossible for you ever to see your mistakes and correct them.

Oh, how the Powers of Light love these greatly beloved Students of the Light! Will you not feel that to-day and feel your Friends of the Light, the most powerful in the Universe, are more than all your earthly friends put together; not that you should not have earthly friends. It is a beautiful and wonderful thing to have them, if they are real; but a friend who seeks your acquaintance to undermine you and bring you distress is not your friend, although there might be the pretense of it. Always allow your Great Power of Ascended Master Discrimination to act and bring you Its Invincible Protection.

Great Powers of Light! enfold these beloved Students of the Light throughout America and the world in the Glory of Your Invincible Protection, Your Directing Intelligence and the Glory of Your Sustaining Power in the acceptance of the Light, the acceptance of the fulfillment of their application their Almighty Freedom, Power and Glory and their Ascension into the Eternal Light Body forever free from all human limitations. I thank you.
