SAINT GERMAIN:

Beloved friends and students: To-day We start releasing the Almighty Power and Activity of Divine Justice. The Goddess of Justice is here! (applause—audience rising) Now while you are standing, I am going to say something to you that may sound somewhat startling to the close associates of the Messengers. The body of this Messenger is a part of Myself. The body of your beloved Lotus is a part of the Goddess of Justice. (applause) The Goddess of Justice is the Feminine Part of Myself.

Now perhaps, you will begin to understand

what is taking place in America which shall bring its fruition of Freedom; and which shall wipe out all human selfishness and discord. Divine Order and Divine Justice shall reign, in spite of anything in the appearance world to-day, in spite of conditions that exist through human beings or in spite of conditions that exist in your government or in your cities. (applause)

I introduce to you the Goddess of Justice! (applause)

GODDESS OF JUSTICE

Beloved children of the earth, in the requirements of the earth, America and her people, to-day the Cosmic Light has seen fit to call Me forth after long long centuries deep within the Great Silence. While you speak the words with your lips, no one upon this earth quite understands what is meant by "deep within the Great Silence." (won't you be seated)

The culmination of the ages, beloved friends and fellow students, is a thing very little understood by any of mankind. You hear of the Cosmic Light. You have heard the Messengers explain to you that the Cosmic Light referred to in This Activity, is a consciously projected Activity of the Cosmic Light, from the Central Source of Light and Energy to this system of planets; but there is far more than just that.

In the culmination of the ages there come certain demands from Life, certain demands of the Cosmic Light, certain demands for obedience within the mass of mankind. In the past the initiations within the Retreats of the world were where mankind sought Freedom and so few received it. The demand of Life, the demand of the Cosmic Light to-day, has brought into the outer

world to you—in the comforts of your homes and the comfort of these buildings—that which has been sought throughout the ages for the Freedom of mankind.

You have seen Me represented and symbolized blindfolded. Why do you suppose that was? Why has it been true so far as the earth was concerned for many long ages? Because when mankind refuses to call from the heart for Divine Justice, then Divine Justice folds Her Mantle about Her and disappears.

Will you understand what My Beloved has done for the earth in bringing the attention of mankind and lifting their consciousness to the point where the Great Demand of the Cosmic Light and of Life has called Me forth again? Once I reigned SUPREME over this earth. The Beauty, the Abundance, the Magnificence and the Blessing of mankind one to another would seem quite indescribable to-day, yet such was. Such will be again!

Are you not fortunate in living in human bodies at this time, imperfect as they are? You can have the privilege of reversing all the mistakes of the ages in a few months or a few years and come to the point where you can set yourself free from the limitations and accumulations of the ages. Try to understand this to-day.

Try to feel it as this Radiance is poured forth to you, wholly independent of These Words. Will you arise and awaken children of earth to this opportunity? Make the call to Life and have your Freedom in this embodiment! Do you not understand that My Coming Forth means in making your call to Life for your Freedom and Ascension, that every honest, earnest, sincere "I AM" Student in the world at the change of passing would

be taken into their Ascension? (applause—audience rising)

The puny mind of vicious individuals who allow doubt to govern them concerning My Words to-day, I tell you beware! You are dealing with Forces! You are dealing with Power! As your Life depends on it, don't go forth from this room, one of you and doubt My Words! Remember, I am Divine Justice and you will compel the reaction of that to come upon yourself!

There have been a great many of the people who have received great Blessings from these Messengers who doubt the Reality of this Instruction; who doubt the Authenticity of these Dictations. Unfortunate are they indeed. Those who doubt these Messengers have failed on the Pathway of Life! You are dealing with Life, dear people! You are not dealing with any human being's opinions and that is why I speak with Authority! I give you the prompting, you must do the rest.

Mankind has long, long—pardon Me if I use the slang phrase—had its fling. Now Life demands Justice for the energy which human beings have used of Life! Therefore, you are living in the vibratory action of the world which is wholly different than it was one week ago.

Can you try to come with Me for a moment and comprehend the vast changes in the vibratory action of the earth, in the change of the currents? All this is the beginning of the great change of the earth currents. When the currents through the oceans change, your land will through it, become a semi-tropical land. (applause) As harmony is restored to the earth, it will rejoice and give forth from its bosom the Milk of Life, the Honey of Life.

Why do I use that expression? Because honey came to your earth from Venus. Do you understand that the honey bee is the most loving creature in the world, untouched by human discord? Else how could it produce the condensation of such Purity and Perfection? Mankind do not think. They do not consider, contemplate or think of the blessings which are theirs. You will find yourselves changed beings from this day. (applause—audience rising)

In the Power of Acceptance is your Freedom. Observe how little is being required of you in the vast Assistance that is being given, in comparison to what it would be without Our Assistance. If you think of that which the Messengers have given forth as just so much talk, then you are wasting your time. Remember, beloved students, the time is rapidly approaching when not one person who doubts these Messengers will be allowed to come into the classes and remain. (applause) Not they will judge, but We. (applause)

Since the inquiry is in many of our minds—“Where am I?”—I am right here! (above the audience) I stand right here, and as I walk this earth, not as you walk, however—a Power radiates over the people and into discordant places, into places of intrigue and deception. Many of those human forms will arise in the distress of their own accumulation and will be unable to further intrude it upon mankind.

Oh, that you are so fortunate as to be able to make that call to Life for Divine Order and Divine Justice to take Its Command upon your earth, in your people, in all activities; for remember when Divine Justice begins to establish Itself through the people of a nation, the people become

the authority of that nation, in commanding and demanding Divine Justice to all. That is why, My beloved ones, since such injustice has been attempted to be heaped upon the most beloved of people upon this earth; then this is a good place to start the Activity of Divine Justice. (applause)

Remember that My Beloved Saint Germain saw fit to establish the Inception of this Great Light here in your city. (applause) I start with the beginning of Divine Justice here and with you! (applause) Make your calls three times a day, which keep the currents of earth flowing to Me, that I may render this service. Remember, I am every place where I am required to be.

I can enthrone Myself above this city and pour My Radiance to every point in these United States of America. (applause) Above the atmosphere of earth where that magnificent Beauty, Purity and Perfection are, there shall I establish Myself; and pour My Mighty Radiance to all parts of the earth. I am sending My Rays to human beings who will call to Me in earnestness and sincerity; but remember do not call to Me unless your motive is right.

Therefore, live in and accept the Power that is bringing your Freedom, and one day you will see this established. Some of you will gain your Freedom in this embodiment; but those who do not, if they have touched This Light, will return quickly and enter into the Great Perfection of the Incoming Glowing, Glorious Age which will bring Perfection, Happiness and Harmony upon this earth. (applause)

All the discord now upon this earth cannot change, cannot prevent this Perfection coming forth; but you could very easily compel your-

selves to defend yourselves physically, which would be wholly unnecessary if the people of earth will listen to the Messengers, will listen to the Law of Life that will give them the opportunity to call the Light into action to be their defense.

This privilege is being offered and if you will not have one you will have the other! Mankind has gone on a long time in its wayward free will. My beloved ones of earth, try to understand now and give the obedience Life requires of you to set you free in an harmonious way.

Your privilege is so great in calling forth the Perfection of Life by the Power of the Light Rays, which dissolve human discord instead of intensifying it. When discord is intensified, it draws into a mighty focus by the presence of war in a nation. You are fortunate. The humanity of earth are fortunate this time, because in all war activities of the present or future, there will be nothing of the black magicians to hold wars in concentrated form. Those generators of destruction have left the earth forever. (applause)

I see many reasons why I shall say to you: "I appreciate greatly the Inception of My Activity here." Perhaps when the Messengers are here again, We may tell you something—the most wonderful thing ever described to mankind. It abides over this locality of America. (applause)

I say to you, beloved students, and all who wish to expand or represent This Light, BE HONEST IN YOUR MOTIVES! Either represent This Light with all you are or do not attempt to represent It in any way! You had better not have contacted It at all, than to allow any deceit to act within your feeling world, after you have claimed to represent It.

These are great Laws whose action no one can stay, dear people. The world has not believed this Truth. Some of the students have not believed It. Unfortunate is that unbelief, but I tell you mankind may no longer play with the Truth. Mankind may no longer use the Truth of Life in any wrong manner. (applause)

You know you have been looking for a great deal of proof, now I shall give you some proof, if you care to observe it since it is past. Fast enough beloved people will come the proof of Life, (applause) but your sincerity to Life depends upon whether you will be alert to observe it or not. Do you see that there are two conditions? Marvels so-called can be performed in your midst and you still not observe them. These Messengers have performed so-called miracles by the thousands in the classes for five years, (applause) but now and then the students when they become irritated forget the magnificent service rendered. That is unfortunate. So I say to you to-day in this prompting, you can have such happiness, such beauty, such Perfection, such limitless supply of all that you require, whether in the Service of the Light or for your blessing to mankind, if you will be honest with Life. Be sincere in your acknowledgment of Life! Be sincere and determined in your application of Life!

Life must have your application to release Its limitless Perfection to you. Why? Because you have forgotten Life so long and have misused Its Energy through so many centuries. Now Life expects something of you! When you have discovered your Source again, then Life must necessarily expect your co-operation in releasing you from your mistakes. You cannot expect Life

or the Ascended Masters to pick you up and carry you around on a golden platter and say: "My children, it is so wonderful of you to let Us carry you." Life does not act that way!

Therefore, remember! Oh no, I am not speaking in sarcasm! I am speaking the Truth to you, and you have got to be strong enough to see It! You have got to be strong enough to give obedience to It. (applause) Look at the service the Messengers have rendered these five years. My dear people, the Messengers do not need mankind, but mankind needs the Messengers—(applause) and Oh, how much they need them! (applause)

Therefore, to-day in loving kindness and in your determination to give all the obedience Life requires, you will find a magic wand in your hand in your call to the Presence of Life. (applause)

May I refer to you just a little personally? I wish you to see this or at least to hear the Words, for I shall describe to you just a little of the change that has taken place in the vibratory action of your individual worlds since I began to speak to you; or rather since I came into the room. Some of your radiance was pink, some of it was pale pink, some of it was pale blue, some of it was a little grey. That has all changed into brilliant colors. (applause) (Won't you please be seated)

I congratulate you, beloved ones, in your willingness to acknowledge the Great Ones as you do. You will never know just how much that has meant to you. We are just as Real and more Real than you are, although you do not see Us; but Life demands the respect that you offer to the Great Individualized Presence of Life, the "I AM," which including Ourselves is ready to give you

your Freedom. Do you quite understand that? We demand nothing whatsoever! We act—but Life, your Life, demands respect, demands honor to that which is Greater and which can give you your Freedom. (applause)

That is why, to-day, in My Humble Service to you, is the beginning of the Service to America. If you will steady yourselves, accept My Presence always active in and about you, you will find much less discord acting in your world. If you go out to-morrow and say: "That was so much talk yesterday," then I pity you sincerely.

The Messengers and We are doing everything that the Life Stream of mankind permits to give individuals their freedom quickly; but not much longer will doubt and unbelief be tolerated. If mankind insist on remaining in their chains, then they will have to remain; but those who do not want to will certainly be free. (applause—audience rising)

Let this day be a Golden Memory to you, for when I again come to you many changes will have taken place. Some of you will have Ascended. (applause) I come but seldom, but when I do, all changes! May this be the beginning of that great change within you, within your world of action, which will establish and anchor you so firmly in the Presence of Life, your "Mighty I AM," that only Its Purity and Perfection flow forth.

I thank you and My Blessings enfold you forever in My Purity and Perfection. To the degree that you fulfill the Law of Life in your call for Divine Order and Divine Justice, shall It be established unto you, America and the world. I thank you.
