

· AMERICA FIRST ·

WE ask all the "I AM" Students in their Group Activities to please realize as never before, the seriousness and imperative need of America at this time. We ask them to conserve their energy all possible, so as to be as joyful and as dynamic in their Group Activities in the decreeing.

Please do not feel that social activity is part of the Service to the Light. It is not! If you have time and energy that is not occupied by your daily service in the outer world, please give it to America now in your Decrees in the Study Groups. That is better than giving it in the trenches of war.

The breakfasts before or during the large classes of the Messengers are always a Service to the Light, but breakfasts and dinners just for social activity do not belong in this Service of the Light. Will you all please be governed accordingly?

With all our Love,

*Mr. and Mrs. G. W. Ballard*
