

· EASTER'S COSMIC DAWN ·

**REAT Cosmic Light in Thy descent
To this Thy world below,
Illumine all Thy Children here
All Freedom now bestow!
Send forth Thy Rays of Living-Fire,
Thy Great Light Path blaze thru,
Consume all that is less than Thee,
Command Perfection too!**

**Great Light from out the Central Sun,
Clothe us in Substance Real,
Enfold all in Thy Love Supreme,
Make us Thy Presence feel!
Thou art the "Blessed Great I AM,"
The Flame of Life and Light;
Thou art the Victor all serene
In Thy full Glorious Might!**

**On Eastern Morn Thy Gift to earth,
Descended blessing all,
Absorbed by man whom Thou dost love
And to Thy Heart doth call!
Encircling earth and ent'ring in,
Thy Light doth ever stream!
Great Cosmic Power! flood the earth,
Show all Life's Way Supreme!**
