

BELOVED DADDY'S DISCOURSE

CHICAGO, ILLINOIS

JULY 28, 1945

EVENING

"THE MIGHTY MAGNET"

BELOVED DEAR HEARTS, since this is My Birthday, I come to visit My guests. Are you My guests or am I your guest? Well in any way, we are the Guests of God everywhere we move in the Universe; and will you feel tonight that your attention is very closely related to your will, because if you will remember that you have free will and can direct the attention where you please, then it is no trouble at all to become a Magnet from the Great Central Sun to which Beloved Jesus referred.

Now there is always surging about you in the outer world, energy and substance and consciousness qualified with everything good, bad and indifferent; but your attention, mark you now, is the magnetic pull of your Life Stream's Energy and you are the authority to say where it shall go. Now you can just as well issue orders to govern your attention as you can tell a messenger to go from here to there; and if you do not tell it — now notice — if you do not direct it to fulfill the Divine Plan of your "Presence" and let the Magnetic Pull of the Energy which came from Above come within you, receive the pattern you wish to be made manifest and sent back to the Source from whence it came — if you do not let that energy flow unto the Upper Magnet, and if you do not definitely control that by your own Conscious Command, then everything in the world around you will control it. So either you run your own house, or chaos does; and there is plenty of chaos in the world about you today.

Remember, there is that force of action of energy in the outer activities of mankind, and supposed to be in the crust of the Earth, that which the world calls gravity, that is the magnetic pull of the energy downward; but Precious Ones, the Flame in the Heart of your own Life did not come from the Earth. Since the Flame came from Above, then Its Authority

over the Energy and the direction of the flow of that Energy belongs Above. And during the first two Golden Ages on this Earth – described as the Garden of Eden in the Bible – that flow of the energy of each one's Life came into the top of the head, down the spine, crossed at the solar plexus and went back to the "Presence"; and hence, what was the condition of the bodies of mankind and their affairs, and what Powers of Life did they use when they let that Upper Magnet hold control of the energy? They had the Power of the All-Seeing-Eye of God, the All-Hearing-Ear; they had the Power of Precipitation, of Etherealization; they could walk on the water – nothing of the gravity pull held them.

If you will let the Upper Magnet have control of your energy, Perfection is yours and Mastery absolutely certain. But if you let the lower magnetic pull of energy into the things of the outer world, then the body sooner or later goes with it, because the substance of the body follows the flow of the energy pulled by the attention. Now, whichever magnet you allow the attention to enter and become one with, will determine where the substance of your body goes.

To the individual who will keep it flowing to the "Presence," now notice, if you keep the energy of your Life Stream flowing back to the "Presence" and the Ascended Masters' Octave by controlling your attention and keeping it There, Harmony automatically reigns supreme; your feeling world always stays balanced. You are automatically harmonious whenever the attention is held in that Upper Magnet, showing that That is its normal place and location. When mankind kept their attention There, they had the use of all of the God Powers of their own Higher Mental Bodies; but when the attention was allowed to go to the things of the outer world, then that Life Stream's Energy flowed into the outer activities and was lowered into the condition that holds mankind in limitations today.

Now then, Precious Ones, the same thing is true of the Earth. It is the Light from Above which is the drawing Power to raise the Earth out of the destruction and chaos of mankind's feelings upon its surface. Therefore, those who understand This

Law have a tremendous responsibility to keep the attention upon the “Presence” and the Ascended Host and the Great Octaves of Life and Perfection above you; and if you do not keep it There, then you do keep it in the outer world’s activities, and **WHATEVER YOU GIVE YOUR LIFE TO IS YOUR GOD FOR THE TIME BEING.**

Now then, in drawing forth these Greater Powers of Life, which We want you to begin to use in your daily habits of the outer world, as naturally as you eat your meals now, when you look back to the time that you ate all kinds of coarse food in the outer – meat, and so forth – and you look back to the condition of your bodies then, and you see what has taken place in your bodies since you turned your attention to the “Presence” and began to make your Call, you are your own proof inside your own bodies of what this Light and your Calls have done to the atomic flesh of your physical forms. Well, if you are that much proof to yourselves, then surely you can be the rest of the way. You have come thus far and you have left many limitations behind, as you purified this body more and more each day.

Now then, you drew the Power of Life into yourselves to produce the Purification. Then why can you not draw the Powers of Manifestation? They are all within Life, and it but takes your attention held There with that love and devotion and fierce determination to draw more, more and more of what is required, to produce Perfection out here which you desire.

Now notice! You remember how many times I used to remind you of your attention, your vision, your feeling or your power of qualification, which is your feeling. Now notice, you may be in distress or not just exactly easy in the emotional body, and you can begin to place your attention upon your “Presence” first, then some Great Cosmic Being – and if someone is speaking to you concerning that Great Being’s Cosmic Powers and Manifestations, and they begin to show you the Handiwork of some of those Cosmic Beings, you become so absorbed in that and you begin to feel the Power. And that is the joy and an upliftment which harmonizes your feelings, and

as long as you do that your harmony remains uninterrupted. But after you have had a tremendous upliftment, let someone come and cross your pathway, and suddenly turn your attention to some of the atrocities and viciousness of war, and immediately the feeling of resentment begins to charge into your emotional bodies.

Now that is the way the pendulum of your own Life Energy has swung all through the centuries. You go to church, pray for a few minutes, maybe if you feel like it – sometimes you pray a little bit longer on Sunday and forget it all the rest of the week – then you wonder why the body goes to pieces, why you have distress in the affairs, and the family doesn't behave and do right, and Life is a failure – one Life after another. Now We want to help all mankind out of that condition, but you cannot help them unless you point them to that which is Above. As long as you entertain them with the things that are below, you are drawing the substance of the body sooner or later into the condition of so-called death.

The energy, unless it is given back to that "Presence," will not raise the body; but the individual who with sincere determination will take that visualization in hand and compel everything given back to that "Presence," will raise the body as sure as creation exists, and harmony is maintained and devotion sent to the "Presence." The whole of the activity of gaining your Freedom, Precious Ones, is to come to the point where you see your "Presence" face to face; and then when you consciously recall that, at any time – you might be in the midst of other activities – but that "Presence" will release again the same Power with which you were enfolded the first time you had the experience.

Now then, if you practice the "Presence," if you practice feeling and seeing and visualizing your "Presence" above you – no matter what you are doing down here – you will be conscious of the Flame from the Heart of the "Presence" flooding out, in, through and around your hands. And as you remember, and think often as you look at your hands, that it is the Energy, it is the Stream of Light within the nerves which makes that

hand do what you want, and you did not create that Light which that was given to you from your "Presence," then you know if it came from Above it is owned by the Above. Then the very energy which flows through the nerves, the veins of your hands with which you do so much every day, all of that is the Light of the Heart of your "Presence."

Now then, as you recognize it is that "Presence" doing things through you, and your attention, love and devotion goes to the "Presence," then the Flame and the Energy of your Life which flow out through your hands, in daily service out here, is blazing the substance you contact with your own Heart's love, the Flame of Love from the Heart of your "Presence"; and that, too, becomes a Magnet. Therefore, it lifts all the substance that your hands handle into Its Own Octave of Light, so you become a blessing then to the outer world in which you move, no matter what things you use.

If you are constantly aware that it is the Flame of Life and Love from the Heart of your "Presence" which make those hands work, and the Flame flows into everything you touch, and that Flame is a Magnet to raise all substance you contact to the point where it is Self-Luminous and charged with Eternal Perfection, then you have the right to raise that into the Ascended Masters' Octave.

If you let the attention go to the things of the outer world, mark My Words, you forget that "Presence"; and you cannot discuss the atrocities of war one full minute and not forget that "Presence" while you are discussing that. Because while your attention is upon them and holding those pictures and you are thinking and talking about them, your energy is flowing qualified with those conditions into the outer world to feed them longer.

If you could take mankind's attention, all mankind's attention completely off war for one week, We could remove all war from the Planet for Eternity. Beloved Saint Germain said long ago, that if you could get every human being's attention away from the war for one week, you could cleanse the Planet for Eternity. It is only the attention of the people that causes their

Life's Energy to go into those channels to longer sustain that destruction.

Therefore, if you will understand that you have free will to compel your attention to go to that Upper Magnet and the Upper Octave of Light, now notice, then day after day as you keep aware of that "Presence" and keep giving everything back to the "Presence," even in the work you do with your hands, it will, as that blazes everywhere the whole surge and power of your "Presence" pouring through you and pouring back to the "Presence," lift you out of your problems and out of the conditions of limitation and distress. This is why it is so necessary for every human being to turn the attention to that Chart again, again and again; and is why it is so important for everybody to have those Charts hung high enough so it compels the eyes to look up when they see that Chart, because while you are looking up, the energy is automatically flowing up to the "Presence," do you see?

Now then, if you continue calling to the "Presence," acknowledging Its Flame, sending it forth to produce Perfection, holding the harmony, asking for the Divine Plan to be fulfilled, Precious Ones, more rapidly than you dream will you find yourselves just getting free from things that used to disturb you so often. And you will become so occupied with all the Perfection which is within your "Presence" and calling it forth, and changing everything in the conditions of the world around you, that the very enjoyment of releasing it to produce Perfection out here, and then blessing that as it flows back to the "Presence," it will automatically be like a Great Magnet which came down and just drew you up and out of all the problems or the environment or the associations that have been your distress.

People do not realize how much they take on from association and environment — much more than they dream — and why is that? Because if you are in a certain locality and environment where certain activities are going on and others are working in those activities with you, you are breathing in the same air they breathe. You breathe in the same air they do. You are sitting in their own mental and feeling world. You are

exchanging ideas. For illustration, if you put in eight hours a day in someone else's atmosphere, you do not keep your attention on your "Presence" eight hours a day.

So your environment and association have a far more powerful influence upon you than any of you dream; and the day will come, Precious Ones, when We will do everything We can to get mankind to stop crowding into such crowded quarters in these big cities. If mankind were to spread out over the surface of the Earth and each one had some time each day to be alone, it would allow the Higher Mental Body of each one to clear out — at least while the individual slept — the atomic substance and vibratory action that they absorbed while they are in association with the outer world conditions that are not as constructive as they should be.

Now your Great Magnet to which Beloved Jesus referred is a tremendous raising Power; and if you remember and use this which I gave you tonight, or which I have given concerning the control of your attention, and recognizing that you are as if you took a horseshoe magnet with the ends up, you are at the lower part of that Y. You are the Y down here. And if you realize that your "Presence" standing above in the Octave of Light is giving you that which comes from the Light, and you are to use it as you know you should to fulfill the Divine Plan and bless everybody and everything around you, then you send your Love and Gratitude up to the "Presence," the next wave that comes down will carry more Perfection, a greater Power, greater responsibility, greater opportunity to send forth greater blessings to the Universe around you. Therefore, your love, devotion and gratitude to your "Presence" is greater each day, but mankind does not do those things in the outer world. How many of mankind are releasing greater gratitude each day? How many of them are happier than they were the day before? How many of them are certain that the "Presence" of all Life within them is going to continue the conditions or the same Perfection they have today?

You see, until you know where that "Mighty I AM Presence" is; until you know that It gives you everything; until you know that you must become one with It, mankind has no certainty of

anything that they accomplish in the outer world. They may use a lifetime's energy to build a condition of Perfection, and in twenty-four hours or between two minutes have the whole thing wiped out of existence. Your "Presence" does not treat you like that! The individual who will stay with that "Presence" will one day have all that the "Presence" is. Now the world does not treat you like that.

If you stay with the outer world, you do not have all the world has – it holds on to it part of the time itself. The only thing you have all of, is its problems. It will give you all of those you want.

This Activity of the Great Cosmic Magnet, We have never gone into very deeply before, but it is necessary that this be made unmistakably plain to you, because when you call for the Limitless Wealth and Opulence of the "Presence," when you call for the Power of precipitation, etherealization and levitation, communication with each other, then those Powers have to come from above you, because the world does not give them to you in the Inner Eternal Action. You have temporary things of the outer world. Everything in the physical world is temporary. Everything which comes from your "Presence" is Eternally yours. The "Presence" gives you all that It has; and It gives you Freedom to use it as you please. If you do not fulfill the Divine Plan, then it is just like a whirlpool. If it is qualified with the fulfillment of the Divine Plan and sent forth to bless the Universe, and your love and gratitude go to the "Presence," then it stays right in the whirlpool and it keeps drawing more and more of its kind into itself, and eventually moves back into you.

So the individual who wants the Power of precipitation, etherealization and levitation must understand that the attention has to be the control of love and devotion, and everything of the outer must be given back to the "Presence." It is not just like you take everything from the "Presence" and give it back, that is not what It gives it to you for. It gives you all of everything with which to manifest Beauty – Perfection to fulfill the Divine Plan. Why? So you might charge the world with Its Perfection. And then you and It become the Magnet which

raises the world into the Ascended Masters' Octave, and your love and devotion go back to the "Presence." But the things to come from above are not to be held here so close to the individual, that they are not allowed to go forth and bless Life everywhere with the Perfection and the fulfillment of the Divine Plan as God intends. Every time that plan is interfered with, you will find suffering and limitation and destruction as the result.

Your "Presence" does not give you any of those qualities. They come merely from the whirlpool of the energy in the outer world that has been held by mankind, qualified with their own feelings; and they won't loosen up and pour out the love and blessings to Life enough, or pour that love and gratitude to the "Presence," so they can let go or loosen their hold upon the whirlpool of that substance that is their problems and distress.

Now, until you will let go of the whirlpool of your problems, by compelling the attention at your command to go there into the Heart of the "Presence," pour that love and devotion and gratitude to Life, and ask that the solution of the problem be released to you from the "Presence," if you do not do that, then the outer world has you in its whirlpool of substance, energy, consciousness and destruction; and there is not a human being on the face of the globe who can deny that. That is why we have said so long that nobody can prove this Law wrong, and everybody can prove It right, if they want to; because It is as exact in Its control of energy and the plan upon which It acts Itself, as your multiplication table.

Now you have heard that the root of all trouble is money. There is no such thing! Selfishness is the root of all evil, and your word "evil" is the word "live" spelled backward; and if evil is not living backward, I do not know what you call it. It certainly is not living as God intends, and why is it living backward? Because it is controlling the energy that the "Presence" gave you to qualify with blessings and love, to flood and expand Perfection in the Universe; and the individual who won't expand Perfection to all Life is in a whirlpool of their own discordantly qualified Life Stream, and it keeps flowing back and beating and beating back into the body discordantly qualified energy and

substance that they won't purify and requalify with happiness and love and blessings to all Life.

Now, Beloved Ones, from this night, I know that you as an entire Student Body will have a clearness of concept of this which I have just explained, that will show you again and again what happens when for a moment you allow discord to go forth. If you suddenly do allow it to go forth, stop it immediately and then ask the Hand of your "Presence" to seize it, purify it, qualify it with the Mightiest Blessings of the Ascended Masters in the Universe and expand it for Eternity to bless the whole World forever. The moment you are conscious of doing something that does not produce Perfection, that has already gone forth, you can – just like your "Presence" Hand reached out there, seized that energy, purified it and requalified it with that which Life intends.

Now there are some remarkable things occurring in the Plant Life on this Planet, because of the Lord Maha Chohan's Mighty Love and Blessings to you Precious Students. You, who have called to Him in love and devotion, you who are calling forth the blessings upon Nature, will see many wonderful new things and activities of the Plant Life in this Land, coming forth to release blessings and to do things which have never been done before through those channels. I want to express personally our Love, Devotion and Gratitude to all of you who have given the Lord the Maha Chohan the recognition you have, and your Calls to Him – and now to Mighty Virgo, Neptune, Aries and Helios.

Oh, Beloved Ones, if you could know what your continued recognition of the Flame of Love from the Heart of any One of Those Beings would do to the atomic structure of your bodies. If Those Magnificent Beings stood before you one day and you reached your arms around Them and said: "Enfold me in Your Love and do that which You know I require most," if you would pour love to Those Beings with that kind of devotion, My Dear Ones, you would experience within your own bodies such a change in the cellular structure because of the Love those Beings poured to the Beings of Their Own Element within you. So, when Their Love comes forth at your command to bless

you, because of the love and gratitude you pour to Them, you will feel a Perfection coming into your bodies which you have never experienced before.

As you sit under the Picture of any One of the Ascended Beings and you still the outer, and then feel deeply the Substance and the Flame, the Illumination and Consciousness from that Master just surging and surging and surging through you while you are very still, you can become so refreshed in a half hour of that, that you will feel like a new human being. Why is this so? Because Love from the Ascended Masters' Octave, that Great Cosmic Love, that Love is the Supreme Authority of Life. It is the Supreme Authority. It is the Supreme Harmony. It is the Supreme Perfection; and It is the Supreme Power which is used by the Beings in the Central Sun to produce manifestations everywhere.

No Ascended Master or Cosmic Being creates a World and brings forth manifestation upon it, without the flash or Flame from the Heart of that Being. Therefore, when you sit quietly in contemplation of that Being, and ask that One to place His or Her Flame of Love through you, It will come into you as certain as you ask for It.

If you had a tiny child whom you loved very much, and children often do this, they come to you, hold their arms up and say: "Mama or Daddy, take me and love me!" would you refuse that child if you loved it very much? Certainly not! Well, the Ascended Beings and your own "Beloved Presence" will flood that Flame to you instantly, as surely as you ask It; and remember that Divine Friend, your "Presence," will never refuse you one thing which is constructive. It never gives you one discord. It has never denied you anything throughout the centuries, and no matter how much you misused Its Gifts, you will never hear a word from It — never a word of criticism, condemnation or reproof. This is more than you can say for the human beings and the conditions of the outer world.

That "Presence" won't quarrel with you. It won't leave you. It won't deceive you. It won't give you anything but that which is good and good for Eternity, if you will fulfill the

Divine Plan with it. The quality of what the "Presence" gives you does not change unless you do something with it that is wrong.

So Precious Ones, from this hour henceforth, BE the Great Cosmic Magnet of the Ascended Masters' Great Fire of Cosmic Love and Gratitude Supreme – first to your "Mighty I AM Presence," then to the Ascended Masters and Cosmic Beings, then to the Great Beings Who direct the Forces of the Elements – and in that love and devotion, not only will you be drawn out of your problems and a greater Peace come into your bodies, but as that "Great Presence" enfolds you, It will reveal to you more of Its Own Divine Design! It will clothe you with more of Its Powers! It will enable you to see ahead days or weeks or months or years! It will make you a part of every Joy in the Universe which will increase your Perfection and the Blessings to those around you.

So, as you remember, your attention is part of the Magnet which draws your Life Energy either back up to the "Presence" or into the distress of the outer world, you will learn to command it and seal it and place it for Eternity within the Heart of your "Presence," the Hearts of the Ascended Masters and the Great Cosmic Beings of Life's Perfection.

Now you are here to express Mastery! You came on Earth to express Mastery! From what? The conditions in the world around you and over the Beings of the Elements within you. So, if the body seems to have been in distress, if you will command the attention to go into the Heart of the "Presence," and the "Presence" to bless the body, then you remember to give the Obedience and hold the Harmony, you will find like a breath many, many, many things dissolving with practically no effort on your part. As you sit under the Picture of any Ascended Master Whom you choose and feel deeply those currents begin to flow through the body, as that Flame of Love and Healing Power from that Master becomes more and more powerful within you, just sit there and see that pouring through and perfecting everything as it passes through. See it and feel it in every cell of your bodies, dissolving the substance that is not

necessary or that is discordantly qualified. Straighten the spine, relax the nerves and the muscles, and go so deep within that feeling, until you come to the point where you are so comfortable that you will hold it, and let it build permanently into you the Substance and the Flame which the Master is releasing when you feel the current surge through.

Precious Ones, in two or three surges of that current, it can still every whirl in your emotional bodies that otherwise would have gone on for forty-eight hours before it quieted down. But the "Presence," when your love and devotion are centered there, can surge through you those Powers which enable you to arise and be made whole, and go forth to heal others and help them to also understand that they, too, can still the outer, receive from Above, fulfill the Divine Plan, send love, gratitude and devotion for the Freedom which Life conveys, and gradually draw each one up and out of their problems into the Sunshine of their own "Beloved I AM Presence," and into the Glory which Life intends for every Life Stream.

Then will you have the ambition to go forth and attain unto the Heights, to do those gigantic services for mankind which become the Divine Pattern of the Permanent Golden Age of the World. You are the vanguard! Let these bodies come into the Perfection of that "Presence" and receive of Its Light, so they may be free and render the Service which forever builds the Perfection of the Ascended Host into this Octave, until the whole World becomes the Perfection of Our Octave.

Remember, Precious Ones, your attention! You are a Magnet who either lifts mankind unto the heights, or if you allow yourselves to become one with the distress of the outer world's darkness, it drags you to the depths — and others with you. There is so much above, Beloved Ones, that the only Magnet which will give you Happiness is that which draws your attention unto those Magnificent Activities of Life's Great Glory, wherein no matter how much you do, no matter how much is to be done, there is never discord and never struggle in the accomplishment and the fulfillment of the Divine Plan as God intends.

So tonight, let your attention go unto the Heights of your "Presence" and the Ascended Host! Be natural and normal in your every day activities! Do the Service that is required with Happiness and Gratitude for the privilege of using the Flame of Love and Life from your "Presence" through yourselves, to do what is necessary in the outer world to produce Perfection which blesses all for Eternity; and let the Wave of Love and Gratitude from your Hearts ascend unto your "Presence" and the Ascended Masters' Octave, and carry there the impulse which raises you each day more and more out of everything that has ever distressed you in the past.

From this night shall that Power act within you as you give It your attention, and It shall be for you the Great Cosmic Magnet which not only one day raises you into your Ascension, but continues on into those Cosmic Activities which are the great Joy of Creation. This night, the Bells of Freedom are ringing for those who will let their attention and their devotion go to that "Blessed Presence" and know they are a Magnet for everything good in the Universe, and that everything which flows through them blesses everything in the Universe with the Perfection of the Divine Plan fulfilled. And you will find as the vibratory action is raised in your bodies, the outer world will lose its attraction for you, and you will go forward on the Wings of Light into the Mastery which sets others free, as well as yourselves.

Unto that end, Beloved Ones, do We assist all mankind, and try to show each one the great Glory and Power which awaits their acceptance. What you accept becomes one with your Life Stream. So, if you will accept tonight the Great Cosmic Magnet of your "Presence" and the Etheric Record of Mighty Jesus' Record of the Ascension over the Hill of Bethany, as the Great Enfolding Flame about you, drawing you up and out of all distress between your "Presence" and that Magnet, you will have a double force enfolding you and raising you more rapidly out of connection with all that has caused your struggle and your limitations of the past.

So this night, may the Freedom which "I AM" and the

Obedience which “I AM” BE that Song of Life which draws your attention unto your “Presence” often, and makes you feel the Great Devotion and Acceptance of everything It wishes to release into your outer use, so you may offer to release others as It has released you.

Beloved Ones of the Light, as this day symbolizes the beginning of the embodiment which has become My Great Victory and Freedom, I bless you all for every effort you have made to give it recognition, as well as the other Students throughout the Land. For you cannot think of Me without My Life Stream and My Love enfolding you, and like a Magnet raising you day after day into the greater Light, until you, too, attain the Great Victory, and We are free to go together throughout the Universe and render the service to Life which is the Eternal Happiness and Great Mastery of all Creation.

May I bless you with everything in this Universe which will awaken you, will harmonize, will supply, will bless and protect you. Know that My Heart’s Flame and Mantle of Protection and Obedience is yours instantly for the asking, and It shall remain until your Ascension is complete, if you so desire.

Thank you for your Calls! Thank you for everything you have always done to help carry this Light! Now may the fullness of all It contains, surge forth to bless you and raise you out of every limitation, and keep you in that Great Magnet of the Upper Circle of Energy of your “Presence” until your final attainment, and the great release bursts forth Its Mighty Light and Song of Joy to all Creation for all Eternity.

Thank you, Beloved Ones of the Light, for this night.
