Headquarters Banquet

BELOVED, BLESSED ONES of My Family at Headquarters, tonight as we enter into the receiving of this Outpouring from the Great Octave of Perfection, will each of you see yourselves held within an Individual Focus of the Secret Love Star, and may everyone under This Radiation be caught up within Its Blazing Heart and held there until every shadow and every limitation is dissolved and consumed happily, harmoniously and permanently by Its Own Great Master Presence of that Great Love which does all things perfectly.

In drawing into Headquarters tonight this Greater Power from the Secret Love Star, We ask you all to feel the ever-increasing happiness that now becomes yours in the use of Its Greater and Greater Powers of Perfection. As we move forward in the Greater Manifestations of the Victory which has to come, we will be more and more consciously aware in the outer of these Powers of the Secret Love Star, the Focus of that Mighty Substance and Energy in and around each one under This Radiation, of not only the Master Powers of the Secret Love Star, but the actual Presence of Those Beings Who consciously direct and control that Activity for the accomplishment of the Miracles upon this Earth that must come to offset human discord.

As you feel this Presence of the Individual Focus of the Secret Love Star around your minds and bodies and individually in your affairs, will you become also conscious of that Great Enfolding Protection that just naturally and normally lifts you out of contact with the dangerous activities that are in the outer world. This is a tremendous added Protection, and as you become more and more conscious of this Power and Light and Substance and the Flame from the Secret Love Star, will you also become conscious of certain Beings from the Secret Love Star Who govern harmoniously all things on Earth wherever They pass by.

While Messenger No. 1 is a direct Representative from the Secret Love Star, yet there are many; and there are Groups of the Angelic Host Who carry out the Mandates of those Who govern the Forces in the Secret Love Star, and you may easily have this Assistance of the Angelic Host to the Earth. Those Beings can come individually or in Groups into a condition or around an individual for the accomplishment of any specific thing that you desire to do in the Fulfillment of the Great Divine Plan that brings Freedom to the Earth.

To dwell often in thought and feeling and the outpouring of your Love to those Who direct the Activity of the Secret Love Star, will bring very wonderful Blessings into your own Beings and Worlds, into the conditions that you contact, and it is one tremendous way of drawing the Victory and the Authority and Power of the Secret Love Star in and around your own affairs or into conditions that you contact, to more quickly lift them into the success that you desire.

We told the Messengers in the beginning of this "I AM" Activity, that nothing was ever really accomplished unless it was accomplished through Our Divine Love; then it becomes permanent. Then it becomes charged with all the Qualities that are necessary for Victorious Accomplishment. So tonight, I am drawing and offering you this more intense Power for your assistance from the Secret Love Star. There are Groups of Beings Who govern Its Qualities and concentrate those Qualities into the lower atmosphere of Earth to the accomplishment of whatever you desire that fulfills the Divine Plan. So, if you will become aware of moving in an Individual Star or Sun of the Flame, the Substance and the Essence of this Secret Love Star, I think you will feel very much more relaxed, and the nervous system and the general health of the body will just expand wonderfully to your great joy and protection.

Now, if you can command yourselves to abide within This and feel Its Presence wherever you move, you will automatically carry forth a certain Protection, and that keeps you insulated from the general discord in the atmosphere of Earth. You must understand that your Protection against destructive conditions has to come by the Love from either your "Presence" or some Ascended Being, in order to be the insulation that separates your own

individual activities from those of the world around you. You may move in the world, but if you are consciously aware of moving within this Star of Substance and Flame and Essence from the Secret Love Star, It will automatically cut the pathway clear before you and enable you to go through your experiences and conditions without this strain and struggle under which the rest of mankind are functioning.

Now, the outer world is a seething mass of discord and hate and limitation. Within the Secret Love Star there is no such thing as limitation of any kind. There is naught to obstruct the instantaneous fulfillment of your Calls and the Desires of your Heart, your Hearts, to fulfill the Divine Plan as We see it. Therefore, if you make this Individualized Focus of the Secret Love Star around you your home, so to speak, and you are always aware of moving within that, then your world is filled with Our Love and Our Success, because as long as you remember that you abide within this Secret Love Star as your home, nothing unlike Our Perfection can enter in; and if some discord seems to come after you have decided to live within this Focus, it is because your attention temporarily goes to conditions in the outer world, and while your attention is there, you have forgotten that you are in Our Home of the Secret Love Star; and when you draw your attention away again from the outer world's activities and realize that you are within the Secret Love Star of Our Hearts' Love, immediately will you feel Our Peace again.

Now then, this Individual Focus which We are drawing tonight around all of those who desire It, you will find many of the things that you require to fulfill the Divine Plan already provided for your use, and then as you become more and more quiet and harmonious within that Secret Love Star, will everything become Crystal Clear to you as to what is the right thing to do ahead of time, and your uncertainty of the past will drop away, as if it had never been.

This Activity of the Secret Love Star is one of the most wonderful things that can be given to the individual on his upward path. We have offered It a long time, and the Beloved Master Jesus long ago said, "If you would see conditions or individuals

suddenly caught up within that Secret Love Star and held there until all things were purified and adjusted, you would have some very remarkable results.”

So tonight, in drawing forth this more intense Activity of the Secret Love Star around each of you, it is that you may have more sense of security, more seclusion, more supply, and more of everything you require to hold Victorious Accomplishment in anything you attempt to do in the Fulfillment of Great Divine Plan. And since, Precious Ones, the Fulfillment of the Divine Plan the Ascended Masters’ Way, means to live within the Qualities and the Radiance and the Power of the Secret Love Star, then your world becomes an extension of Ourselves. Just as your outer self is the extension from your own “Beloved Mighty I AM Presence,” that extension moves in the physical octave to do certain things; just so, can your world be an extension of Ourselves. Therefore, if you move in Our World, if you live in Our World, if you enjoy the Peace and Harmony and Purity of Our World, well, why not hold it around yourselves all the time?

The Secret Love Star is part of Our World, and as you draw Its Powers in and around yourselves consciously, and remember many, many times a day that the Blessings and the Flame and the Substance and the Essence of the Secret Love Star have come to fill your world and raise your world into that Perfection, then you abide within these Greater Powers of Perfection which are Our Natural Way of Life.

And now, in regard to all things concerning the Press and the Foundation and the Activities of the Voice of the ‘I AM’, and whatever you choose to do in outer world activities, just command before you move into outer action that you are going to carry on this Activity within your Individual Focus of the Secret Love Star, because My Activities of the Saint Germain Press and Foundation and Voice of the ‘I AM’, etc., are all My Activities which I have charged forth and sealed within the Powers of the Secret Love Star, because We must do Our Work by Pure Divine Love in this Activity, if It is ever going to be Master over mankind’s discord.

So, the more you can consciously be aware of this, not with tension, but with a great enjoyment and joyous enthusiasm that

you would have if someone suddenly said to you, “Here, I give you my beautiful home; you may have it to use as your own and to live in the rest of your unascended days.” If someone provided something lovely that you had desired in the way of a home and said to you, “Now this is yours; live in it; enjoy it and use it as your own as long as you live,” you would be very joyous, I am sure. Everyone of you would be as delighted as children, and if you would realize tonight that as I draw this Individualized Focus of the Secret Love Star around each of your bodies and your affairs, and those of all under This Radiation, if you knew what that meant and how powerful It is, you would be like happy children, dancing with glee at the opportunity to enjoy all that is within your Individual Focus of that Secret Love Star.

I am not going to enumerate all the wonderful things that are within It, because as you give It acceptance and call forth whatever you require, will It reveal to you what a boundless Treasure House It is, and how All-Powerful are all things that you draw forth into outer use when held within the Protection and the Enfolding Presence from the Secret Love Star.

I would like especially at this time, if you would live in this quite consciously until the Seven Sacred Weeks begin. It is a marvelous preparation for the Outpouring of the Blessed Master Jesus during the Seven Sacred Weeks; and His Blessing this year is to be so tremendous to any who will give Him recognition, that your very attention upon the Secret Love Star and your own Individual Focus of that previous to the Seven Sacred Weeks, should draw very great Happiness and Power of Its Victorious Accomplishment into your outer affairs; and you should live in that as if in a fairyland, because It contains everything that can make you happy, and nothing that won't make you happy.

I would appreciate it deeply if you live as much as possible in your conscious awareness of this Activity of the Secret Love Star, until after the Seven Sacred Weeks are over; then choose for yourselves in the light of the experiences that are just ahead of you, whether you choose to make that a permanent thing. So many times people are aware of these things, Precious Ones, at intervals, but they don't keep consciously aware of them continuously

enough to draw all the Power that they could just as easily have, as to draw part of the Power.

If you keep charging into everything you do, all the Power of Victory of the Secret Love Star, until you feel Its Radiance within, until you see Its Light around you, until you command that Light to go into any place or condition to bring Perfection and Blessing and Love that bring joy everywhere, Oh my, if you call this into outer action, you surely must see Its Manifestation.

Those Great Beings of that Concentrated Power of Perfection can never fail. They would no more refuse you than the Sun would refuse to give you Its Light and Blessing. They live to pour out the Wonderful Gifts and Blessings from the Secret Love Star, and so should you live to call forth Its Wonderful Powers and Miracles and Blessings in and around yourselves and live in Them, and then to consciously send Them forth to assist others so they too can live in the Powerhouse of the Secret Love Star.

Oh, it is so easy, Precious Ones, if you would just keep your attention upon it. It is so easy to give recognition to that which is Perfection, that which brings you Love, Happiness and Peace, that which dissolves your burdens; and if you have burdens and limitations, they are because of lack of Love from the Secret Love Star. Since Its Outpouring is increasing to the Earth over the next one hundred years, those who remember Its Presence and live hourly in Its Flame and Its Essence and Its Substance, will as surely feel the increase of Its Power during the next one hundred years, as you open the door for Its Perfection to go where you command It drawn forth.

It is only since This Work of the "I AM" has been given, that the Outpouring from the Secret Love Star has ever covered the Earth completely at one time, and since that covering is sustained for one hundred years, you within that may draw any intensity you desire in and around yourselves to be any amount of Power you require, to do what is necessary to produce Perfection and hold the Victory of Freedom wherever you command It to go forth.

This is such a wonderful Gift and such a wonderful Blessing from Life to all of you, that I want you to become aware of the Outpouring from the Secret Love Star as your own individual

Home. Then when you invite others to come into your Home of Blessings from the Secret Love Star, they too may have an Individualized Focus of Its Flame and Substance and Essence charged into their worlds, to be the Strength of the Love and the Power of the Light of the Cosmic Christ that repels and overrules everything that is of discord.

This is one of the Mightiest Blessings of this Age, to have mankind's attention focused upon that Secret Love Star, with the conscious knowledge that each one may draw an Individualized Stream of Its Blessings and Its Powers to fill and surround your Electronic Circles, to be your World of Action, to be your Power to send help to others, and at the same time to protect all that is constructive against the discord of the outer world.

This Activity of the Secret Love Star is one of the most Heavenly, Enjoyable, Wonderful, Eternal Blessings that Life can give, and It is a concentrated Action of the Love of the Cosmic Christ.

Therefore, if you will feel how deeply *Real* It is. If you will feel your world filled with Its Beauty and Perfection, and Its Power and Its Great Harmony and Enjoyment in the use of those Powers of Life's Perfection, you will draw more and more and more of Its Flame in and around yourselves, to the accomplishment of anything and everything that you desire to do perfectly.

Only as you actually experience how quickly It answers you, will you begin to realize how great are the Gifts that We are bestowing and offering for your acceptance — just the acceptance that all the Perfection that is within the Secret Love Star is Our Gift to you. The more you use It, the more you can have; and the more you give of Its Blessings to others, the more can flood in and around you, until you become a greater and greater Focus of Its Ever-Intensifying Power and Victory.

Everything in the way of energy becomes power through use, and the more you use the Power of the Secret Love Star, the greater becomes Its Victory of Perfection and Protection in and around you, and you can increase that Power to any degree whatsoever. Then, you can send It forth in any direction or to accomplish any service that will bring Perfection to your fellowman.

This Power of the Secret Love Star can lift everything that is a problem or limitation from those who will give It acceptance, and live within the Joy of Its Love, and know the Protection of Its Great Enfolding Light and Presence; and if you begin to acknowledge the Presence of the Secret Love Star, you not only would have the Flame, the Essence and the Substance, but many, many, many times would you find the Individualized Beings Who direct Its Activity, standing beside you and giving you Their Assistance to your Eternal Joy and Freedom.

May the Power of the Secret Love Star lift you all tonight above everything that has ever been of strain or struggle in the human. See everything caught up within the Heart of the Secret Love Star and there purified, transmuted, raised and perfected into the Glory and Perfection which are the Eternal Activities of the Secret Love Star. You see you must draw, Dear Ones, an Intensified enough Activity of Our Love in and around yourselves in the physical octave, in order to enable you to survive and hold protection and loose the Power that expands your work of Perfection. You can't, just of yourselves, hold your own against the discord of the outer world. The mass accumulation is more than the individual can stand up against, unless you draw Our Love in and around yourselves to be the barrier between.

The Secret Love Star is just such a Focus of Our Power, Our Flame, Our Love and Our Light, and all the Qualities from Our Octave that are required to keep you protected and supplied and moving forward in the Fulfillment of the Divine Plan of mankind's Freedom, without any further delay or intrusion caused by the discord and the hatred in the rest of mankind.

So, in accepting My Gifts tonight, will you please feel and visualize It very Real and Tangible around yourselves. The more you are aware of this, the brighter becomes the Light within and around you, and the greater the Protection that is within that Light; and when you build that Light bright enough, you would be surprised how the destructive forces back right off, the moment they see your Light expand. They don't want to fool with the Power of the Secret Love Star; they know better.

Therefore, when We have offered It to you as an Individualized

Focus to be your Home in which you move in the outer world, to do the things that produce Perfection and to hold the Protection of all that is constructive, It is a very Real, Tangible Presence and Power and Focus of the Great Love and Light and Flame from Our Great Octave of Light, which means the Electronic Belt around the Physical Sun.

When you realize that the Secret Love Star is a Focus of that Intense Action of the Sacred Fire, the Substance and the Purity, the actual Essence from the Electronic Belt around the Physical Sun, and you are entitled to a river, so to speak, and release of that in and around yourselves in order to go forth and do the work to which you have put your hands, then you surely aren't going to forget your Powerhouse and the ways and means of releasing what you require to do, what you want to do to fulfill the Divine Plan. You surely are not going to forget This which We have offered you, when your Heart's Desire is to have Freedom and fulfill the Divine Plan as Life intends; and you cannot accomplish anything that is worthwhile that could be sustained, or that is worthy of being made Eternal in the Universe, unless you accomplish that by Divine Love. Whatever you do without Love has to be done over and over and over again, and that is why the outer world is the grind-mill of existence, and will continue to be until someone puts Love where the human acceptance of discord and limitation has seemed to be.

But you who are part of My Family, and to whom I offer a Home in the Individualized Focus of the Secret Love Star, can from this very moment live within Its Shining Presence, draw forth Its Boundless Powers, manifest Its Limitless Victory, and *BE* Its Perfection in all you desire to do in fulfilling the Great Divine Plan that We want to release to free all Life.

This Activity is vitally necessary in the lower physical atmosphere of Earth, in order to accomplish that which is the Work of the Incoming Golden Age. You cannot produce a Golden Age and bring forth Its Manifestations through hate. Therefore, all that is to come that represents Perfection and Freedom to Life, must come by the Power of the Secret Love Star.

It might interest you to know that every Cosmic Being Who

gives Assistance to the Earth has an Individual Focus of that Love and Power which is that Life Stream's Own Concentrated Gift to the Earth. Every Ascended Master or Cosmic Being has a Star that represents His or Her Focus of the Power of Love to be the Guiding Light that clears the way, transmutes conditions, illumines, purifies, perfects and raises all into the Fulfillment of the Divine Plan. The Star is the Guiding Light.

The Secret Love Star is the Guiding Love, the Accompanying Love, and the Protecting, Insulating Love of that Power from Our Great Realm of Life — the Electronic Belt around the Physical Sun — that is drawn into the physical octave to overcome the limitations under which mankind have been struggling.

So tonight, as you think upon this, live within it, ask the Secret Love Star to draw everything into Its Heart that comes to your attention which does not produce Perfection, for Life will constantly use all Its Power, will bring greater Power in and around your bodies and yourselves. You draw the more intense action of the Secret Love Star by the use of Its Energy into all conditions that need perfecting.

So, regardless of what it is you wish to accomplish, the Power of the Secret Love Star is vitally necessary to insulate you while you are accomplishing it, and It is the Power by which you lift the conditions from the human into the Divine. Then will you find Its Reality and Its Power growing greater as you use and use and use this Focus for which I have called, which I am offering you, which is Real and Eternal, and which shall manifest in and around you all, until all behold Its Activity and Its Victory of Perfection.

The Secret Love Star is a Mighty Reality! It is the Glory of God's Power, the Victory of God's Love, the Protection of God's Light, and the Wisdom of the All-Knowing-Mind of God, Whose Directing Intelligence clears your way and shows you at all times the perfect thing to do through Love to make Perfection permanent.

So Beloved Ones, as I leave you tonight, clothed in a Mantle of Its Substance, in the Armor of Its Dazzling Light, and in the Atmosphere of Its Love and Boundless Energy, so shall you go forward insulated in Its Protecting Authority, because none unascended

have any authority over that Secret Love Star, anymore than all mankind on Earth put together could take the Star Venus out of the Heavens. That is why, when I bring this Assistance, It is an Authority that mankind cannot oppose. Feel yourselves charged with that Authority and raised into Its Victory. Use Its Power! Command your protection, and then blaze Its Boundless Love and Light and Help to all Life, that all may be caught up within Its Activity, and purified and perfected for the Freedom and Enjoyment of all.

May Its very Essence, Its Tangible Presence, and Its Boundless Powers and Blessings flood your beings and worlds, come under your Direction, and take you forward to Victory, untouched by anything but the Love and the Beauty and the Perfection of the Secret Love Star. Enter in tonight and have your Freedom in the greatest joy you have ever known, and *BE* Its Victorious Presence through your own use of Its Powers to all Life wherever you move, and command with Its Authority that all unlike Its Perfection must be dissolved by Its approach, and the Victory of the Light and the Love within Its Heart, compels your Freedom and Perfection and Boundless Supply everywhere through Love.

I thank you for your presence here, and I trust you will consider the Headquarters of the Saint Germain Press and Foundation, and the Voice of the "I AM", function from tonight within the Secret Love Star — and Its Success is Boundless, Invincible for Eternity. Feel It! Use It! Go forward Its Victorious Presence and be free! Give Freedom everywhere without reservation.

Thank you for your presence here, and I shall come back to you on everything you do for the Victory of the Light. I shall return it to you a thousandfold.

With My Love of Freedom for Eternity, the Blessings of the Secret Love Star shall reveal themselves to you visible and tangible to all, and be the Proof and the Reality of that Secret Love Star to Life wherever you move.

Thank you with all My Heart.
