

BELOVED MRS. RAYBORN'S DISCOURSE

*Through Mr. G. W. Ballard*

CLEVELAND, OHIO

MARCH 6, 1938

NATIONAL GROUP

OUT OF THE FULLNESS OF MY HEART tonight, Beloved Ones, I hope to convey to you a Feeling that will be with you forever. Many of you know the Gratitude that David Lloyd pours forth to this Beloved Messenger, because of the Service rendered Him, but I too can even yet scarcely think of it without tears of Gratitude coming to My eyes.

When I thought I was passing on, as the Change took place, and stepping through the veil of human accumulation, or the veil of flesh, I stood there facing Beloved Saint Germain. He had come to Me many times in the Tangible Body during My operatic career, but this was quite a different thing. Then He explained to Me. He said, "My Dear, you are not passing on. You are still connected with your physical body and We shall hold that connection until you, by the Power and Understanding which I shall convey to you, give the assistance which you must give to make the Ascension.

Can you feel with Me for one moment what that meant to Me? He had never discussed the Ascension with Me to speak of. He had mentioned Its possibility for many of mankind during this lifetime, but He had not said or intimated that such a thing was possible for Me. Therefore, I say to you today, any more than I knew what was in store for Me, can any one of you tell Me if you know what is in store for you in the acceptance of your "Presence," the "Mighty I AM"?

I tell you, Beloved Ones, as One Who has gone through every detail of the experience of gaining that Eternal Freedom, you cannot imagine in your fondest moments, what This means to you, and what Beloved Saint Germain has brought to you, and what these Beloved Messengers mean to you and mankind. They are very humble and unassuming, but the firmness with which They have held the Students on the Pathway of Light has been the most wonderful thing for the Students.

Unless there is someone to guide the individuals until they become sufficiently anchored in the acceptance of their own “Presence,” that they know the difference between satisfying their own desires and that from their “Presence,” well, there would be a great deal of difficulty on the part of the Students in determining. But since the Beloved Messengers are there to prompt the many earnest, blessed, sincere Students, and a great number of them appreciate that fully, then you are in a position far beyond that which was My privilege, for you are gaining daily a greater comprehension. I mean by this, in your feeling world, of what this Law of Life means and what the requirement is — not only for gaining your victory in the outer world, but for that final Goal.

You may wonder why before each Class, as the opportunity offers, We Who have so recently become Free in this Acknowledgment of the “Presence” and the Assistance given Us, hold your attention upon that Victory. Because *there are many in America today who will make the Ascension in this embodiment, and let no one ever deny it!*

The limited concept of mankind, when it comes to the great Activities of Life which they do not understand, is the thing that needs to be risen above, for unless mankind is willing to accept that Knowledge which is beyond their present use, how can they gain a greater Victory?

The Ascended Master is the *only* One Who knows the Law of Life in Its Purity, Fullness and Perfection, therefore is the *only* One Who can convey to mankind the exact Law, Its exact Application, and the exact Results that will be produced from that exact Application. That is why today the results in the humble efforts of the Beloved Messengers have been so tremendous; that is why there is not anything which can stop the Outpouring and spreading of this Great Law, because It is a Cosmic Activity. It is not a concept of the Messengers or any individual in embodiment.

*This is the Work of the Great Ascended Beings Who have chosen to give the Assistance to mankind in this last effort to free mankind from the bondage of hundreds and thousands of centuries!*

Today, in all that you have come to know of your “Great

Presence” and the results of your Application, still it is but a fragment of what you will experience as you continue on. *I plead with you, do not let anything ever turn you aside from your “Presence.” Hold to It! It is your Life* — that Great Stream of Life and Energy anchored within your human Heart! If mankind never knew another thing but that one magnificent Truth, in time, all mankind would be Free!

Further than that, you should understand the Application and Its tremendous, gigantic Power, and knowing that all you call forth is yours, belongs to you, then you will know that it is your right and authority to use it to produce Perfection in your world.

The need of mankind today is to fully realize *you alone are the authority for your world!* Unless you take the reins and decree, apply for the Perfection you wish, you cannot have Its Fullness. But if you apply in your gratitude, loyalty and strength, then great, almost unlimited Assistance can be given you to assist you to that Perfection which you alone could not attain.

That is why We will urge the Messengers to explain why *the Ascended Masters are essential!* You would readily and perhaps justly say, “Having the ‘Presence’ of all Perfection, what is the need of Them?” which has been said many times during the three and a half years. But you must see now why it is. Mankind is not stabilized enough in the harmony of their own Being to hold that harmony continuously enough without the Assistance of the Ascended Masters to gain the Victory. It is not possible, because of the great accumulation of mankind through the centuries, and enough has not been consumed yet. But today the Great Divine Director explained to you that wondrous Service which He is rendering.

I trust every one of you feels it in the fullness of your Heart — all that it means to you in the dissolving and consuming of your own human creation and accumulation. No one in the outer can possibly conceive just what it means. You can feel it in your feeling world, but until the Light within your Heart expands to a fuller degree, you will not comprehend just what it means.

Today as this Great Radiance has gone forth, and the way opened through all channels in the mental and feeling world of

mankind to give this Radiance and Assistance, We rejoice with you beyond all words, that since the Attention of the Great Ones has been called to the need of mankind, They are giving this inestimable Assistance constantly. You hear Us talk and you feel your appreciation, but do you feel its far-reaching Power acting in your feeling world, which is your powerhouse?

Look! Let Us take a very practical illustration. In your city is your central powerhouse for all the lights that are here, with all the wires going to all the buildings; then within the buildings is the distribution of the currents through the wires, lighting all the rooms and all that. Just the same is that activity going on within your body, for here above you, through your Higher Mental Body, is the Powerhouse. Here at the base of your brain is the distributing point for those Currents of Energy, threads of Light to all parts of your body. That means in every cell there is that luminous Point of Light! If your Powerhouse were cut off, the Light would cease to be as in so-called death. The same in your city — if a storm cuts off the action of your powerhouse, then your city is in darkness.

Today mankind is re-establishing their consciousness, their feeling, their full use of that Powerhouse they have so long forgotten. Mankind will ere long come to know and absolutely govern and control all conditions within their human forms by the Power of the Light that is there. Not only is the Power of the “Presence” anchored within your Heart, but in every cell of your body is a Point of Light which the “Presence” will govern, as you call It into action to do so. Then you have re-established yourself in the Power of Life.

Now remember, everything touching upon this magnificent subject is the activity of your own Life. We insist that all of the earnest, sincere Students hold that definitely within their feeling and consciousness; because there is not one thing in all the outer world of activity of mankind that is so practical as the activity of your own Life, because that activity of your own Life has produced everything you have, even your city.

Think of it, Beloved Ones! Every building in your city came through that Stream of Life and Energy that is anchored within

your Heart. Does that seem a great deal of substance contained there? Well, it came through that Stream of Life and Energy as an idea and then into form. You, having a Higher Mental Body, which is the pattern from which the Light Pattern within your physical form is taken, must one day respond and come back to Its original Purity and Perfection.

The many things Beloved Saint Germain taught Me during those years at the close of My operatic career, I thought were very wonderful, and I was able to apply them under His Direction with great accuracy and power; yet how little that was in comparison with what took place in the great Change. To gain a Freedom that is Eternal, forever and ever, Free from the limitations of Earth and its entanglements, is it not worth anything in the entire Universe, in the effort that mankind might require to attain that? I urge you, do not listen to foolish people that might say to you, “Oh, the idea of your Ascension; It is a long way off.” Yet the whole World has looked upon Beloved Jesus as an Example, as the Freedom of the World! But how mistaken they were, lacking, in thinking in their attention to Beloved Jesus was their Eternal Freedom. Dear Ones, that attention to Him is a magnificent thing, but unless you make your own conscious effort and Application, you will never be Free in the wide world.

You are the cause of everything that is in your world, and you will never find your Freedom until you are willing to acknowledge that, and call to that “Presence of all Life” to cleanse, purify and perfect the imperfection that has been drawn about you. In the constant repetition the Messengers have made in calling your attention to this great and vital Truth, We utilize every opportunity to assist, and while you are listening to Our Words, a great, powerful Radiation is going forth, acting in your feeling world to give you that Assistance which alone can come from There. *You hear Words, but they soon pass out of your memory; but what is anchored in your feeling world, is there!*

I wish I might find a means of conveying to you in your outer consciousness, what it means to have a quality and power of action anchored in your feeling world that is sustained, and goes on acting regardless of what your outer intellect is upon. This is what

is being done, because of the urgent demand for the protecting of mankind; and but for that, the Great Divine Director would never have given the Assistance to mankind that is being given today in freeing them from their human creation.

Another tremendous thing, as We observe it, is the release from the Earth of the discarnate entities that have harassed mankind for so many centuries. If I were to tell you or show you the discarnate entities that have been drawn about this building, you would be amazed; therefore, tonight We are asking the Mighty Astrea to send His Legions, and seize and bind all entities about this building, and take them out of the Earth's atmosphere forever, that mankind may be free from their influence.

It seems so strange that many times individuals who don't quite understand, think that some hardship is being worked upon disembodied individuals. My Dear People, the greatest Blessing ever given to discarnate individuals in the history of the Earth, is in that Service to set them free, because they could not set themselves free! Those who still remain in the Earth's atmosphere are those who cannot leave of their own volition, so the Great Divine Director is giving this Assistance, over which He alone is the Authority — *the greatest Blessing ever known!* The Service He has rendered New York City, Kansas City, Philadelphia, Los Angeles, and San Francisco, is unparalleled in the entire history of the Earth. Do you realize, Beloved Ones, that in the conditions which have accumulated through the centuries, all that is there? For instance, San Francisco is known as the "city of seven hills." Seven times cities have arisen in that same locality. Then, there is the accumulation of all that has ever been there, besides the present. Then, do you wonder why sometimes such destructive qualities act within certain cities or certain places on Earth?

The same as Mexico City, which is the seventh city built upon that same location, and that is why in the long accumulation of hundreds and thousands of centuries, mankind today does not understand. Only the Ascended Masters Who are Free and are able to see all that has occurred, are the Ones that can know. There is no egotism about that, but it is the greatest Blessing to all mankind that has ever been known!

Therefore, to those who can see that and can accept this mighty activity in their feeling, will find they have entered a new world. Only as you understand these things can you become master of yourself and your world and govern the currents of energy that flow through it.

In Life, your Life, in all outer application and activity, is the replica of your own Life — even to the outer structure of things. For instance, this building seems more dense than your physical bodies, does it not? You would not think of your bodies, the flesh of your bodies, being as dense as those walls. It is not. As this is a lower vibratory action than your bodies, so are your bodies a lower vibratory action than Ours that are set Free, but We are none the less tangible.

In the physical octave, you see what is here, but you do not see what is beyond the physical octave, because the vibratory action here does not permit it, except in a few instances where one has brought over from the past, the activity of the Inner Sight. Today the danger is that so much of that seeing is not from the All-Seeing-Eye within, but is what We term the psychic sight, which is just one step beyond the physical. You will notice that a great many people who see with the psychic sight, sometimes honestly and earnestly think it is the All-Seeing-Eye within. They find themselves suddenly mistaken in the things they see. Then they must know that is the psychic sight they have. The All-Seeing-Eye within you will never make a mistake in the World. When It sees, It sees absolutely clearly, as clearly as you see each other. There is no haziness about the All-Seeing-Eye within you; and where there is, let it be a warning to you that the wrong activity is going on.

The Messenger before you, in His association with Beloved Saint Germain, had awakened within His own brain structure the All-Seeing-Eye of God. That is within every human being, and when that is released in Its clearness, you see with a clearness there, which is never a mistake. When He sometimes sees things and calls your attention to it, it is with the All-Seeing-Eye of God, because the Ascended Masters won't allow anything to operate with Him or be voiced forth that had anything of the psychic or spiritualistic connection.

Therefore, to all who will understand this and give their attention to the “Presence,” at a point in the Expansion of their own Light within their Heart, the All-Seeing-Eye within the brain, and the All-Hearing Faculty operating by the Higher Mental Body within each one will come into natural action, safely, clearly and perfectly.

Today in the releasing of the faculties within the individual, the greatest Blessing has been brought to mankind in taking their attention off the centers of their body. There are seven centers there, but mankind in the human effort cannot awaken them. The more you concentrate on your body by the constant disturbance of the ungoverned feeling of individuals, the greater distress you will come into. There is no getting away from it in the World, because you are reversing the Law of your Life.

The great Fiat that went forth in the beginning, “Thou shalt have no other gods before me,” was the Fiat of the “Presence of all Life.” Now today, in the clearness of mankind’s understanding, they are comprehending what that meant as never before. So, in your experience, if you will remember that, you will have its Eternal Blessing.

Every one of the Ascended Masters has said to mankind, “Never give your attention to Us first.” There is a mighty reason for that, because you must fulfill the Law of your Life if you are to have Freedom, and that comes by your attention first to your Presence of all Life, the “Mighty I AM.” Then if you, in your human Calls, need assistance — notice this carefully, please, everyone — your Higher Mental Body knows your requirement, and sees that you are not harmonizing yourselves enough; if you are sincere to your “Presence,” the Higher Mental Body sends forth the Call for Assistance, and someone of the Ascended Beings lovingly gives that Assistance to mankind.

You don’t need to worry! It is quite all right if you wish to make the Call, after calling to your “Presence,” to someone of the Ascended Masters. But if you will remember that your Higher Mental Body, knowing the Perfection of the “Presence” and the imperfection which you have drawn about you, then you know It stands there, guard over your world, if you give It an opportunity

to act. So long It has waited for enough harmony in the feeling of mankind to give It the opportunity to act.

Now today among the thousands and thousands and thousands of the "I AM" Students throughout America and the World, that obedience is being given — the greatest thing, Beloved Ones, that humanity can possibly conceive. Do you wonder that We have pleaded so earnestly, that all the Students everywhere pour out Love and Blessings to each other? Oh, don't let the little peculiarities of the human interfere with this great cooperation necessary for the Protection and Freedom of America. Any earnest, sincere "I AM" Student should be willing to put down any human feeling, that all might come together and be cooperative in all that is required for your city, for yourself, and for America.

Oh, that you might see as We do, how often days, weeks, months, and years, the outpouring is delayed that would bless yourself and your city, by the acceptance of the earnest, sincere Students of some kind of discord or falsehood that is spread. Beloved Saint Germain has recently said to Us, that when the Students are strong enough to stand unaffected by it, He will bring forth the mathematical record of what has taken place in the activity of mankind — I mean the Students who have not given obedience by sufficient harmony among themselves. Yet in spite of that, great, great has been the accomplishment.

Today the great proof stands before mankind, that in spite of all, shall We say, lack of obedience, great, great has been the accomplishment. Now then, as you go forward giving greater and greater obedience to the Great Ones, do you not see how everything of Perfection is possible for you in your own world, your own, precious bodies?

As I observe tonight, Dear Hearts, how many of you have given scarcely any thought to the great, great Truth that these bodies right here, if you were to make the Ascension in this embodiment, would be that which must be purified and perfected for that Purpose? If you come into the next embodiment and there It is achieved, of course you will not have the imperfection that has been accumulated in these bodies. But still I say to you, there are

thousands of Students in America today, who, if they would be determined, would accomplish It.

Now do not misunderstand Me when I say that. In no wise become fanatical and think you must forsake all outer activity and devote all of your efforts to your Ascension. That would be a mistake. Go on in your Application to your “Presence” and let the Wisdom and Power and Authority of your “Presence” govern that part of It. That is the correct usage of the Law by which the greatest Blessing and Perfection can come to you. You are here in the world of activity where Perfection is needed.

For instance, a few individuals in the West and a few in the East became fanatical and just thought that all they had to do was wish for the Ascension and have It, regardless of the purification by their own volition, that would be required for that. That was what you would call fanatical and would not produce definite results. All of the Understanding of this Work is the most practical thing, and if individuals become fanatical, that is their own fault and not the Teachings which Beloved Saint Germain has brought forth.

So, in every place you can, stand guard, especially in your feelings, against that condition. If you see one that is not quite as normal as it seems, do not say anything verbally, but call their “Presence” into action to harmonize and bring the balance there; but hold them steady, in your Application, to their Perfection.

Never in your outer world of activity has anything so practical been brought forth as this Understanding which Beloved Saint Germain has brought forth. If you ever in your Life, past or in the future, would expect to see a practical Being, then it is He. The day He comes forth in His Tangible Body and you see Him, and He moves among you, then will you know the Truth of these Words. Among all the Great Ones — of course, all are practical, but He, having so much more activity in the outer world of mankind, perhaps expresses the most powerful, practical activity of any of the Great Ones, because the Ray under which He acts makes Him the Authority for mankind.

How We wish the entire orthodox world could understand that, that they would not feel that Saint Germain was usurping

the Powers of Jesus. He is just fulfilling the very Laws which Jesus started for mankind. Can you show us this anywhere in the entire Earth, until Saint Germain brought This forth? The example in the experiences of this Messenger is before mankind in the fulfilling of the Words of Jesus. He is the fulfilling of those Words. Jesus said, "All the things I did, ye shall do." He did not say, "You could," but He said, "You shall do"; therefore, the Messenger in a small way has been able to fulfill His very Words. The Students throughout America and the World are beginning to fulfill His Words, because they are performing miracles, so-called.

If you were to see the river of letters and the letters of gratitude that come to the Messengers for the instantaneous healings of every description, then you too would love Them as We do, in a Gratitude that is beyond the human comprehension. The greatest Blessing ever given mankind is constantly pouring forth — not from the physical bodies of the Messengers, but from Their Call to this "Great Presence of all Life" that projects Its Mighty Rays, and the Work is done.

Let Us remind you again — I know it has been done many times, but you cannot have it too often until you have it fixed in your minds and use. When you call the Powers of your "Presence" forth, That is Light. If you know that in your feelings, you cannot fail to have the magnificent results. Light knows no opposite. It proceeds into action to perform that Service for you and It is not concerned upon what the activity is, but It proceeds at once to render the Service. As you feel that with great earnestness and intensity, you will know that not one Call of yours can fail to be answered, and at once.

A great, great Service will be rendered to the blessed people here in your city and to yourselves, and We rejoice that it is possible. In establishing these Mighty Focuses of Light throughout America, one day, as they come forth into visibility, will the rejoicing of mankind know its fullness. We understand all that mankind is craving, and yet the only satisfaction that they can find anywhere in the Universe, is to know this "Presence." Then, as they call It forth — Its Mighty Intelligence and Energy — will they know true satisfaction, true happiness, and the tranquility of the

feeling world, that alone can come from that acceptance.

There is no stabilizing power, except from that “Great Presence of all Life.” When you realize all that is in manifestation came through that Stream of Light and Energy through individualized Beings in human form, then you will know in that Stream of Light is contained all that you can ever wish for in your whole Life.

Do you know, Beloved Ones, that in one sweep of the Power of that Energy is more Power than in a hundred pounds of dynamite! You see people use dynamite to break up solid substance. If mankind only realized that in the earnest, sincere Call and that release of Light in, through, and around the physical body and through the feeling world, is that same limitless Power to cleanse and purify and release you from every one of your limitations. Feel that tonight, and as I am talking, you silently call your “Presence” into action to anchor all of this in Its Mighty Action in your feeling world to produce these results to which I have called your attention in their Mighty Activity.

It is not enough to know of the “Presence.” You must have Its Action in your body and feeling world and out into your world of activity, if you are to be Free. It is action today, Beloved Ones, that mankind require, and that is why your attention is being called to the idea of contemplation instead of meditation. So easy! The human of mankind wants to rest. It wants to find some excuse for inactivity. It says, “I am tired; I am hungry.” Then, after it has eaten, it says, “I am sleepy.” That is but the human element acting. Then the command of that is this — your reason for eating is to give you action; therefore, be active!

You will find as you call the “Presence” into action and think of the stillness as contemplation rather than meditation, you will find you will release yourselves from the mass understanding of the old idea of meditation, that means in most instances, sooner or later, a negative condition, and that is what the Ascended Masters see today mankind needs to arise from.

Contemplation in the very word itself, means action; while meditation means quiet and stillness. Think of it! For hundreds of centuries the word meditation has charged the atmosphere of

Earth. In India the word, or the radiation from the word meditation, has become an overwhelming power to the people of India. While, if they were all to reverse that into the idea and feeling of contemplation, it would bring an action there that is the most needed thing today.

That is why the American people have been chosen as the only means left upon Earth through which to gain the Victory of Light, because they are the most active people on Earth. Now in the Understanding and Application of their "Presence," all activity will ere long become the Activity of the "Presence" instead of the human qualities acting — and magnificent it will be! Then, you will find a world of happiness, inconceivable up to that time.

Look today, even with the position that a great number of the Students are in, you have never seen people so happy in your Life anywhere. It is the comment everywhere the Messengers go, as the groups of people come together, and the outside world says, "What in the world is it? All of your people look so happy and prosperous!" It cannot be otherwise, as each one calls the Action of their "Presence" forth. It is Perfection, and more and more Perfection ordinarily will assert itself in and through each physical body, the feeling world, and then out into each one's activity. It is a natural result. You cannot give attention to your "Presence," that that activity and result are not produced.

Now, look at the people who do not feel quite sure that this mighty Truth is the fullness of all Perfection. Yet, in those individuals whose feeling sometimes wavers, still is there a calling forth of great results. Now look at the conditions which the Messengers have to govern in the cities in the great Classes that are held. In every instance in their Call to the "Presence," that has been governed. It has never failed once. Then, if that can be done, think what can be done in your individual Lives where that does not have to be contended with, only in such a minor degree.

Therefore, We draw your attention to these mighty activities in order that you may see and feel the magnificent privilege and opportunity that are yours. (*Right at this point, the steam pipes begin to pound.*) Won't it be wonderful to be where there are no steam pipes? Do you know, Beloved Ones, that beautiful thing is

before you in much less time than you imagine today. All the crude manner of heating, ventilating, and cooling your buildings will be changed and so simple that you will be astonished.

Ladies, I wish to say to you, I, too, have taken care of My own home in the physical world, and the dust never ceased to accumulate. But today, and so near before you, will be in your use the Projection of the Light Rays that will govern everything in the cleansing of your homes. That will come within the lifetime of many today. The Ascended Masters use It constantly.

Observe on the Chart, will you for a moment? Those Great Rays going forth from the “Presence,” as they are represented there, in reality contain all Power within them. Each one of those, whether it is Healing, whether it is Cleansing and Purifying, or whether it is Power to move by, it makes no difference; the Ascended Masters utilize them for all activity that is required. Our Precious Boys, Bob and Rex — the astounding Service they have rendered the Earth so recently, is by the Projection of these very Rays as you see represented there.

Try to feel with Me for a few moments how real that is. Won't you individually in your general Application call forth the Authority and Power of your “Presence” to enable you to project those Light Rays, or rather, that It will project them at your Call, even unto visibility? Won't you start in now? Oh, Dear Ones, you have to begin somewhere. Why not now? Just begin to call — Oh, not with any particular expected results; but just begin and call It forth, and then see what will happen. If you do not try a thing, how are you to have its use?

You will notice the various times that the various Ones of Us call your attention to certain things. If you take the tip, you will find yourself in the position of some remarkable results. We cannot say to you many times, “If you will do thus and so, you will have thus and so results,” because you must want to do these things of your own volition. We cannot say to you, “Now, if you will do so and so, you will have these tremendous results.” Of course, you would buckle in and try, and suppose something happened in your feeling world and the result did not follow; you would probably say We were untruthful.

So, as you build up in the release of the Mighty Powers of the “Presence” that is anchored within you, then will you know definitely your own power and authority in your world. You are in a position today, every one of you, to call forth the Powers of your “Presence” to harmonize and produce Its Perfection in your world. If you will only believe that, try it out and put it into practice! *The most important thing in the World is to practice the “Presence,” that is, calling It into action for everything that is required from the smallest to the greatest.* To the “Presence” there is no great nor small; Its Law goes into action and the result follows. As soon as you can get the fullness of that feeling into action, then your every Call will be answered instantly, because the “Presence” Itself does not require time or space as you know it.

You know, the Great Ones have said several times that America is the Heart of the World and India is the Head. That is all very true. Therefore, in the Service of the Great God Himalaya that has made it possible for these Currents to carry the Words and the Feelings of every Dictation that is given, to all the Students throughout America and to India, what do you think that means? As you, in your attention to the “Presence,” receive the balance of activity in your Heart and head, so in the world of mankind in this great requirement today, is the balance of America, the Heart, and India, the Head, which is making some things the Great Divine Director referred to, possible today, which we had not conceived even one year ago. As the progress and release from mankind comes, Beloved Ones, then We can determine, step by step, what is possible to be attained in the Blessing and protection of mankind.

You might say to Me tonight, “I will gladly give complete obedience to the Laws of Life,” while you are in the great Radiance that is here; but tomorrow, when you are out moving among the discord of mankind and something disturbs you, you might change your mind. Mankind is constantly doing it. When the Light has expanded enough in you, then We can depend exactly on your promises. That is why today is the magnificent achievement, Beloved Ones, because there are so many thousands that are becoming so firmly anchored in the Acknowledgment of their own “Presence,” that there would not anything disturb them or trip

them up, and that is Our great, very great Rejoicing. How grateful We are to all those Blessed Ones for that stability. It makes so much possible that would not be, otherwise. So, will you tonight accept all this in the Mighty Activity of your world? Hold it so firmly in its Mighty Activity there to cleanse, purify, harmonize and release the great Perfection that awaits there for you.

I say to you, Blessed Ones tonight, how I would love to convey into your feeling world — those who have the appearance of age upon the physical body — Oh, Beloved Ones, in My physical body, I did not have but very little appearance of age. I used to wonder why it was. Now, today, I see so clearly how it is that mankind have upon them the appearance of age; yet no matter what the years, no matter what the conditions that exist today, if the Blessed Ones understood that, in that form, standing with the Radiance of their “Presence,” every vestige of age could be swept from that body in a few hours.

We long for the raising of the vibratory action of mankind to come to that point, where some of the Great Ones can come forth to show to the people of Earth how these things are real, and how they can produce the results almost instantly.

I say to you, Beloved Ones, I know some of you have read those Books very earnestly, but Beloved Ones, *you have no idea the magnificence that is in those Books! I plead with you, study, study Them.* Every Word has a living, mighty, powerful Truth in It. For instance, take the description where Saint Germain healed Miss Livingston in Paris. What it would mean to charge into your feeling world the actuality of that! No matter how many times you have read Them thus far, let Me suggest to you tonight, every time you read a description in *Unveiled Mysteries* or *The Magic Presence*, stop before you start to read that description and say, “‘BELOVED MIGHTY I AM PRESENCE!’ NOW YOU GIVE ME THE FULL ASCENDED MASTER FEELING OF THIS IN THE TRUTH WHICH IT CONVEYS.” Then see what a change will take place in your feeling world as you read those descriptions of what actually takes place. It is so important.

Within *Unveiled Mysteries* is the most tremendous Healing Power. The Messengers have thousands and thousands of letters

of the most wonderful, beautiful gratitude from individuals who have been healed from the reading of *Unveiled Mysteries* alone. I say to you, please do not let the unfortunate individuals try to spread the great untruth that these Books are not real and all They claim to be. Don't let those things enter into your world and deprive you of the magnificent Blessing that is there for you. *Every Word in those Books is true and carries the greatest Blessing to mankind ever conveyed to them in so many Words.*

Again, I say to you, Beloved Ones, the Book of *Ascended Master Discourses* is one of the most powerful things in the World today, because those Words are Cups that carry the Qualities of the Ascended Being giving that Dictation, and It holds within every one of those Dictations that certain Radiation which the individuals will absorb into their Beings if they read It with that feeling and consciousness.

I say to you, the greatest privilege ever given human beings is before you in that Book of *Ascended Master Discourses* for your freedom, because of the Qualities which are contained and are charged into your feeling world as you read It, if you read It with that feeling. Never in the World have such things been given. Shall I tell you what Mr. Gaylord said to Me recently, within two weeks? "In the former activity of the Retreats of the World, if they had had that Book of *Ascended Master Discourses*, the black crosses that are planted in the Earth, showing the failure of the students on the Pathway of Light, would have diminished ninety percent."

You perhaps do not understand that. Many of the old occult students should. In all of the Retreats of the World wherein students were seeking the Light and were admitted, and for any reason were not strong enough to stand the requirements, and failed on the Pathway of Light, they were sent back into the world, and a black cross was placed there until the day when they won the Victory. Then it would disappear. That was the old occult law.

Today, thanks to the Great Light of the "Almighty Presence of Life," that has disappeared from the World. The students, knowing that when they entered those Retreats or schools, think what that meant to carry back into the world in their memories! Think of the vast difference you Beloved Ones have today, wherein

there is no memory but the Perfection of your “Presence” to ever be considered in your search for the Light. All trials, all the conditions you meet, are in the outer world, the most wonderful thing, Beloved Ones. I do feel that you are feeling and appreciating tonight, as never before in your Life, how great is your privilege in this magnificent Activity which is yours today — not a thing that can ever remain in your memory of any failure of achievement! Is it not magnificent? Is it not the greatest Blessing to mankind? After all, you today, this is your own activity in the world of mankind.

If you started a business and it did not succeed, how difficult it was to erase that memory from your mind as you sought something else! That gives you a slight idea of what it would mean to carry with you the memory of a failure in the Pathway of Light. All of that has been done away with.

Again I say to you, Oh, Beloved Ones, with all the Love of My Heart, *how can humanity ever give Gratitude and Thanks enough to your Beloved Saint Germain, Our Beloved Saint Germain?* Do you think, because I have attained and entered into that Perfection, that I ever forget for one moment His Blessing to Me? Never through Eternity will I fail to pour out Gratitude to Him! As He pours out Gratitude to the Great Divine Director for His Freedom, so do I pour out that deepest Gratitude of My Being to Him forever. Today, as I move among the Students and see that great, great Gratitude that does pour forth to Him, I think how all the World is changing into that mighty Perfection.

Will you remember the Love that the Great Ones have poured forth to you tonight? This is only the beginning of what will be released to you in the Class. Let it be a memory of Eternal Joy, lifting you above the discord of human creation, holding you in that Eternal Embrace of Light in the Fullness of Its Activity, Presence, and Power, giving you the Glory, the Victory of the Light in your own “Mighty I AM Presence.”

I thank you.
