

## GEMS OF LIGHT

☉ BELOVED SERAPIS BEY ☉

**O**h! let us not yield any longer to discordant things of any kind! Remember that within all Life, everything is loving, kindly cooperation. In all Life, in all Nature, does the apple tree interfere with the oak? Does the cherry tree interfere with the peach? Is there not a magnificent Law of Selection? Does the tomato interfere with the potato? Does the radish interfere with the carrot? Then, the Selective Law, now mark you, this is tremendous if you get the point, the Selective Intelligence which is acting throughout Nature is what is ordinarily termed a mass consciousness. While it is directed largely by the Maha Chohan, yet it acts with definite precision. Why? Because the carrot does not interfere with the radish! It does not try to!

You know, you are far more important than the radish and the carrot. Notice! We are getting down to brass tacks, as you say. Now notice! These are powerful things, Dear Ones, and once you get this in the feeling consciousness, you will never let go of it in the world. That which is acting as a mass throughout Nature is far less powerful than the Intelligence of your "Presence" acting through you, is it not? Is there any comparison? Then why do you not have the same result that the carrot and radish do? Because you are constantly interfering with each other. Do you not see that? Your human desire to dictate to another person and tell him what to do, when and how to do it, is the thing that plays the havoc in the human world. If you could be like the carrot and the radish, not wanting to interfere with each other, think how wonderful your Life would be, filled with Beauty, Harmony and Perfection.
