

**Messenger Number One
from the Secret Love Star**

Hold the picture in your driving of your automobiles or your flying of your airplanes or whatever you're handling—if you will hold the picture of everywhere you go, you are clothed in a Tunnel of the Violet Consuming Flame or a Tunnel of Dazzling, Diamond-shining Light so dazzling you can scarcely look into It. And if you'll form the habit of moving in this as the Pathway ahead of you, you will close out, by the very picture in your mind, you will close out the hordes of evil that try to impose darkness and destruction and desecration on your pathway or into conditions that affect your finance, your health, your success in business, or the harmony of your relationship with others.

This Acknowledgment of the Ascended Masters' Diamond-shining Control of every bit of manifestation is a thing that you need to just set it as a habit of your own speech, your thought, and your picture held in your own mind—becomes for you a Living Presence around you. And then, many times, one or more of the Angelic Host would stand near you and

pour forth the Activities of the Sacred Fire or Cosmic Light that would hold control of physical conditions that you physically cannot control.

And I mean, for instance, on the highway, if a tremendous truck were coming under full speed and if something happened, you physically haven't the amount of energy to control that; but the Angelic Host could on the instant flash the Flame there that would stand between you and the oncoming vehicle—whatever it might be—and would protect you if you have this Momentum around you. Because when We see the Light around the physical body of an individual, when We see that from a distance, and then We watch what takes place in the emotional body, the atmosphere around the physical body, when We see the flares of feeling, We know from both their color, and the shape of the energy—as it whirls in the atmosphere, We can tell whether the hordes of evil are driving at you, or you're driving into something where they might affect you, but from which you could just as well be free if you will call this into outer Action.

And then the Guarding Angels could just—even from a distance, could flash, like that—a Light in and around you, or a Flame, to repel the destructive conditions and protect you so as to hold control of the physical action in the physical world of other people besides yourselves.
