

Beloved Godfré

Mankind has not a fragment of an idea of how that Mighty, Mighty Blessing serves the Earth—mankind and all upon the Earth—how much is drawn forth on this planet through that Golden Ray.

So tonight may you enter into the Golden Temple in the Etheric Belt around the physical Earth as your bodies go to sleep. May you enter there and receive of Its Mighty Blessings, Its Power, Its Beauty and Its Perfection, Its Victory and Its Mastery—and be consciously aware of what a magnificent Blessing that Golden Temple is to this Earth and all upon it, and the Blessings that come to the Earth from that Etheric Belt. You can just as well go forth and receive intensified Gifts and Blessings from that Great Focus of Assistance as you can lie down and go out of the body with no special Command as to that which you wish to bring back into it.

Tonight as I meet you through the veil of sleep while these bodies are being restored and rested, I shall take you on a journey and show you at the Inner Level of Creation still

greater Blessings of the Golden Flame of the Love of God's own Heart. And when you use that phrase, the "Cosmic Love of the Cosmic Christ," it means, My Loved Ones, every possible Activity of that Golden Flame that exists throughout Creation, and into which you can reach at any time and draw forth any of Its special Blessings to assist yourselves, your fellowman, and all upon the Earth until all the Perfection that is there has come to clothe the world and give it Peace, Love, and Perfection in the Victory of God's Heart forever.

Then will you know why the Elohim of Peace is called "He of the Sunshine Countenance," because in that blazing Golden Flame that He directs is the Mightiest Joy of all Creation and the Limitless Gifts and Activities of the Sacred Fire. Give Him recognition, as well as the Goddess of Peace and those who come with Them; and call forth Their Blessings everywhere you go, that you may be a Sun of that Peace and an Ambassador of His Love to the Earth that has longed for that Peace so long through the centuries. Let Him, once again, take full Dominion throughout the Earth and reveal to mankind the great Joy that is within the Fulfillment of the Divine Plan under His Direction throughout the world.

It is My Privilege and My Joy to assist Him in drawing forth more intense Action of the Golden Flame to this Earth. And in cooperation with our Beloved Saint Germain, may We help you to become so blazing in the use of this Golden Flame to build Perfection, after you have used Saint Germain's Violet Flame to purify, then may the Golden Flame come in and build the permanent Perfection in the world that becomes the Golden Age of His Freedom to all.
