

DISCOURSE BY
BELOVED PEARL

THROUGH MR. G.W. BALLARD
DENVER, COLORADO • MARCH 11, 1939

I greet you in the Name of Light of your own Life and the “Presence,” the Giver of all that is ever manifest in the human octave. However, before I continue, one in the room was very angry when Lotus remarked that there were no fallen Angels. That is true, and you will be very wise to remove that feeling from within you.

Can you imagine how joyous it is to greet you in this manner? Within a day’s drive by automobile is where I first beheld the Great God Tabor on Table Mountain referred to in the Books. With this Beloved Messenger, Rex and Nada and I—there—for the first time beheld that Great

Presence, and He spoke to Me. Even then little did I dream in my fondest imagination all that would take place so soon.

Beloved Saint Germain was kind enough to take Me under His Wing long before my brother Bob or anyone else knew it. When He led me to them, oh how wonderful it was! How little you beloved ones dream today how soon you might be led to those Ascended Master Friends, even in human form, wherein and through which might come your Freedom. Oh how often, Beloved Ones, we move among Angels in human form and do not know it. The first day I met the Beloved Nada when I came to visit Bob at the mine, little did I understand, even in the illumination I had, that she was an Angel embodied, really, in the Harmony and Purity of her being.

You are so near to the Cave of Symbols where We had so many wonderful hours, little dreaming even then the Preparation that was going on within Us because of the Joy of that which We were witnessing. Oh! the day that you realize, Beloved Ones, what your attention and your sight will do for you, you will make it your greatest, most magnificent servant. It is always at your command, obedient to you. Your attention will not of itself defy you. It will not go where you do not wish it to go. Since the fault, if that be such, is within the feeling body—or your feeling world that causes your attention to be drawn—then by the Command of the “Presence,” in your Call to the “Presence,” you can regulate and hold in complete obedience your attention.

Now, Beloved Children of the Light—for I do consider you all, regardless of age, Children of the Light—remember that you are the authority. You can have and cause to be done what you wish, but it must be to put aside everything that has held you limited. Now in your previous understanding, it did not give you Freedom, did it? Then today in the

Understanding of your “Great Presence” of Life which is giving Freedom to hundreds of thousands of people—and as you have observed, has given Freedom to the Messengers who stand as an Example before mankind as that Freedom, that Dominion over every conceivable condition that confronts mankind—then you must see how it is the Law, the Understanding of the “Mighty I AM.” *It is the Law.* It is not anyone’s opinion.

It is vastly different from someone’s opinion about a thing when you enter into the Activity of Life and command Its Currents of Energy to cleanse, purify, and take Command of you and your world. You have set the greatest Law in the Universe into action to bring this about; and with your harmonious cooperation with It, It cannot fail. And the period in which that is accomplished depends wholly upon the intensity and firmness and determination to which you hold to that Call to your “Presence.” Therefore you are no longer living in a world of chance. Such has been the case, I am frank to say; and from Our unlimited Vision now, in seeing all that is going on among mankind, We see how the steady Release is coming—and oh! the Joy when I see this as I move among the young people of America.

I wish to call your attention today, Beloved Ones, and to the older ones as well—in this quiet atmosphere—to the Truth concerning marriage. In the Octaves of Light, there is no giving in marriage. There is only the Activity of the two Rays which came forth from the One Great Flame of Life as you have seen illustrated in the Magazine. Only in the human octave are the mistakes of human marriage made. It is not that marriage should cease in the human octave, but those who understand the “Presence” of Life should call for Wisdom to direct them so no mistakes be made.

The Wisdom of your “Mighty I AM Presence” will direct you. If your Life Stream requires the association of another, the correct individual will be brought to you who will be harmonious. Then It can intensify your companion’s and your own Light to the Perfection of both.

We must make the following more clear and firm in each Class. When people come into this Understanding, both the young and older people, and after a lifetime of great inharmony, begin to feel harmonious to each other, do not misinterpret that harmony as a desire for human companionship. A vast number of the Students have oftentimes misinterpreted it as such. Sometimes that might be true, but be sure of it before you take such a step. Please listen to Me! This is the most vital thing among the Students of mankind today. Marriage in its Purity in the human octave is a magnificent thing. But marriage through human desire is a tragedy as you all know quite well. The “I AM” Students of today are not subject to those conditions if they will wait and call earnestly to the “Mighty I AM Presence” for Its Wisdom to direct them. If such a condition seems apparent in one’s life, the individual should call earnestly and wait until he or she is sure; then no mistakes can be made. This will do more to encourage others of humanity to enter into the Glory of this great Truth of Life than perhaps any other one thing.

I say to you blessed young people and others, if you seek the Presence or Truth of Life just for your financial freedom, just to solve your problems or for any human event, you are not getting the fullness of the Action of your “Presence.” Seek your “Presence” for Its Freedom and your Love for It. Then all things that you require for use will be added, and that is not a mistake. That timeworn Statement will become a Reality in the Life of every human being. That is what We

see today in the great Joy in the Expansion of the Light. In some places, some of our young people have made some very serious mistakes by not listening to the Messengers' promptings; and I trust you here will listen so carefully and stand so firm within the Call to your "Presence" and Its Directing Intelligence that no mistakes be made.

You do have a privilege over most places, most localities in America, because of your altitude here. It is only a short way above you where human creation ceases to function; and in your locality, that is only two thousand feet above you. You see how near your altitude is to being out of the accumulation of human creation. When I say that, of course, understand that I mean all that is discordant or limiting.

I do feel today I should call your attention again to the appearance world which holds everything to frighten you, to intimidate you, to make you feel your inability to cope with the conditions that are there. Yet those appearances have only that which humanity has given them as a sustaining power—through the attention carrying their life energy to it. Since you can, in the Power of your "Presence," withdraw all energy from the appearances which touch your world and make them helpless to act there to produce discord or limitation, then you are the master of your condition, are you not? I wonder how many quite understand what the word "mastery" means. Just the Dominion of Light over human qualities. And that is what the word "mastery" was derived from in the long, long centuries past. One who gained self-control, "mastery," or the command and directing of the currents of energy which their life poured forth, became the "master" of themselves and the conditions which concerned their world.

Only a few years ago some of our very lovely Americans went abroad on a vacation for their health, as they thought;

but then they found and met a very Great One. Having met that Great One, and almost in the twinkling of an eye, having removed from their feeling world the cause of their breakdown, so to speak, they returned to bless their fellowmen. It is quite likely that ere long many of you will meet this Individual, not knowing that He is the one to whom I refer. Having in a few minutes gained the Understanding in the Presence of this One—how to govern the currents of energy that flowed through his body—and with an intensity of comprehension, held It for constant use. You today are having a similar opportunity.

O Beloved Ones, how magnificent it would be if everyone who comes to these wonderful Classes would, the night before, *call the "Presence"*—remembering that the Higher Mental Body is the Director of those Currents of Energy—to *cleanse and purify your atmosphere by the use of the Violet Consuming Flame, and then to clear and hold in Perfect Action your comprehension of all that was said during the Class.* Oh! you would gain such Power of Action over that. And you would not again do this, for your "Presence," your Higher Mental Body wants you to have the comprehension, the Freedom—and quickly. It does not wish you to wait for months or years in gaining the comprehension, the fundamental points that you might grasp at once.

We are beginning to take this up today and shall continue it throughout all the Class Work, that each one may arise more quickly into that clearness of comprehension that enables them to apply the Law with so much greater ability, so much greater power, that all will then more quickly enter in and have the Freedom which they should quickly have. It is not a matter of persons, places, or conditions; but it is a matter of how much you, in your Call to the "Presence," have

cleared your feeling world of disturbance. I know what that is. You know, Blessed Bob and I never had a real home in the human octave in this embodiment. Our mother passed on following my birth and I lived with an aunt who was so kindly, but oh, so irritable. Then that day when Saint Germain—or rather, that night when Saint Germain came into my room and said, “My child, you shall no longer be disturbed by these conditions!” and to my utter amazement, I found that never again was my aunt irritable to me. Then later she passed on, and I came to Bob and entered into that great Freedom. So again—you, today, My Beloved Ones, no matter what the conditions of the outer world are that beset you, so can you be released, so can you go forth to meet those Ascended Master Friends everywhere they may be. The “Presence” of Life will draw Them to you, that you may go forward in your Freedom as We did.

Beloved Ones, human qualities, human powers which have created limitations and disturbances, to the outer sense seem a great, tremendous binding power; but how quickly you can release yourself from it if you really understand it. I could not help—as I stood here by Our Beloved Lotus as she was talking to you and when she called your attention to those many things—I could not help but put My Arms around her and bless her for her boundless courage and strength to voice the Truth straight from the shoulder. (*applause—audience rising*) One day perhaps you will know how that Mighty Power has released thousands and thousands of people who have come into these Classes. When you know the Truth, Beloved Ones, your courage is boundless; and when you know that no human opinion can change It, then in your Call to the “Presence” of Life, allow It to be the Commanding Presence under all circumstances and conditions.

I think the Messengers, as well as yourselves, will be interested to know that last night I visited our old home in My Tangible Body; and can you come with Me just a moment and realize that the same magnificent Harmony continues at the ranch—at the mine—that was there when My Beloved Father [Mr. Rayborn] was constantly with them. He still is, not in person, but by the Projection of His Mighty Light Rays that stand there a Life-giving, Commanding Presence to those whom he loves and who love Him.

Can you quite understand how a group of men that are considered hard-boiled by the rest of the world in mining and ranching, can and do contain such a love for their benefactor that it will last forever with them. Such is your opportunity, your privilege, every one of you, to pour forth such a Power of the Radiance from your “Presence” that It becomes the Harmonizing Glory of Life pouring out that will one day lift you into the full Glory of Its Action—when one will determine to remove all irritation, inharmony from within their feeling world and spoken word.

Long before His Ascension He poured forth that Radiance, or His “Presence” did through him, because of the natural Harmony that was there; and that grew into a mighty Action. Today We are entering into the Glory of the restoration of that throughout the industrial world of America. (*applause*) Mr. Rayborn will have a great part in the restoration of that to humanity and to the industrial world. Now He understands the great Service that He may render to the world of industry.

Now then, Our Beloved Lotus will appreciate this: Up until two years ago the question was, “How was it that a man having a ranch and selling cattle could have been selected to such great Freedom?” Do you know that there

are thousands of activities in the world of industry today so much worse? Are there any activities in the world of human industry today that are perfect? Think of it! Can you show Me any activity in the world of industry today that is perfect? All the outer world, My Beloved Ones, is largely human creation, because most of it is discordant; and that means that it is human creation. Only when a thing becomes charged with complete Freedom is it the Activity of the Perfection of Life. Yet all of these conditions, all of these activities within our industries—and conditions that exist in transportation and all that—all are using this Pure, Perfect Energy of Life. Then what is the matter? Your power of qualification, My Beloved Ones, is a gigantic thing in your use. You cannot help but use it. You are using it every waking moment. From the time you open your eyes when you are born until the Life Stream disconnects, are you using your power of qualification.

Now that you know how to govern it, you can make it your most magnificent, obedient servant which will raise you quickly to the Heights by qualifying everything that goes forth from you with the Perfection of Life, the “Mighty I AM,” amplified and intensified by the Ascended Masters and the Cosmic Beings. That is how you can reverse all conditions that have existed in the outer world because they have come into human concepts, human interpretations which are not correct. Since your Life Stream, acting at the Command of your Higher Mental Body, is the only Director or Authority for your world, then to give It your attention—and thus by giving attention to your “Presence,” you are giving it to your Higher Mental Body, which will direct those Currents of Energy at your Call, cleanse, purify, harmonize, and hold you within the Mighty, Directing Intelligence of your “Presence” in your

Call to It. That is positively unerring. Now observe: When you call to your “Presence” and know your Higher Mental Body is a wholly Perfect Being, the Real You—when you ask It to do something, It does it. It has all Power with which to do it and only requires your maintained Harmony in order to carry out your Command or your Call. Then is it not certain? Could there be any uncertainty about it? I think not.

This is one point that Saint Germain gave me in the beginning of my Training and enabled me to hold my peace under any condition. And up to that time it had been very inharmonious among the children at the school where I was going. But from that moment—and of course, I know that It was His Assistance given forth; yet I had the very clear comprehension of It, and all that ceased then. Even as a child I began to realize how all disturbance and limitations of mankind were experienced and came alone from their own misuse of the Power of their attention and their physical sight. Qualification, physical sight, and attention—may I use the term—are your invincible weapons of defense, because in your Call to the “Presence” to establish about you the Invincible Tube of Light or Circle of Blue Flame, then you use your power of qualification to sustain that, and you will find yourself moving Invincible in that magnificent Environment which no outside human qualities affect in the slightest, because they must all become subservient to It because It is the “Presence” of Life acting which knows no opposite.

Now then, all who will give that Obedience to Life by Harmony maintained in their feelings will find it quite easy to establish this condition, even as a child. And remember, at fourteen years old I was able to govern every outer condition which touched my world—harmoniously, every one! (*applause*) Those about me and my aunt often looked at

me in amazement when I knew the feeling that was trying to assert itself in her, yet could not find expression. Then when it did not find expression, it would subside and disappear at my Call. The children, my associates—their love became so great; and they would often ask me how it is “that you are always so happy?” I said, “Just because I am happy.” That is the only answer I gave. I said to them, “You can be as happy as I am if you will.” But He did not allow Me to discuss that at that time.

How wonderful is your position today! Notice how you stand. Every one of you precious ones stands in the same position today that I did with Beloved Saint Germain at that time. He came forth and sought Me out, as I afterwards learned, because of the Expansion of My own Light—which I knew nothing about until I came into His Presence. He has sought you out. Your Life, your Higher Mental Body, My Beloved Ones, has sought out Beloved Saint Germain; and He has sought you! (*applause—audience rising*)

Now rejoice as never before today that all this Activity which has occurred up to the present time has come about through the exact Action of the Law, the Law of your own Life. You could not be here; you could not be giving your attention to the “Presence” of Life if the Light had not expanded enough in you in order to hold the balance in you to do it. Do you not see that, Beloved Ones? Once you do, you will see then how that your future Victory in your Call to Life must be sure. It must be certain. It only demands your determination and Command to go forth to enable this great “Presence” of Life and this great Stream of Life to flow forth in a greater volume which harmonizes everything about you and brings into your use every good thing that you require.

I think today I should call your attention to one Activity. It is so simple and yet it is so powerful. If any one of you, every one of you, every “I AM” Student in America today, or all whose attention has been called to this Work, this Great Light—would, of their own volition decide to take a few moments, either upon retiring or upon arising in the morning, and stand holding their hands to the “Presence,” *call Its Light forth to expand with such Power and Intensity that everything, every person that they touched in their movement of the day, would become harmonious to that Great Light that was flowing through them; and that they would remain in the Harmony of that Light as It flowed forth into action through them*—that one simple thing would do wonders untold for them.

But be thorough about it! Just don’t do a thing today and forget it the rest of the week. Beloved Students, if you were driving a post—you see, I became somewhat familiar with activities on the ranch, and I know what it is to drive a post—anyone who is wielding that sledgehammer to drive that post, if he hit it a lick, then expected it to go on down, it would hardly do it, would it? Therefore, you keep on until it is where you desire it to be. Just so in your sledgehammer blows, in the Call to the “Presence” that dissolves and removes the accumulation of discord about you. Just be that firm and sure, and the results will be there. It cannot fail in a single instance.

O My Dear Ones, it is only because most of the time, unknowingly, you keep allowing the attention to go back and revolve in your feelings the conditions of the past. My Beloved Ones, if this hour you could forget everything that had passed—up to this hour—in your life’s experience and go on in the world of the “Presence,” oh how quickly everything

of discord would disappear from your world! As your Beloved Lotus has said, so apropos, it is just as important to have a good “forgettery” as a good memory. (*applause*)

O My Beloved Ones, to forget all that has been! what a glorious achievement! And you can do it. You can, in your Call to the “Presence,” cause everything of the past to be forgotten. That is why, as you who have been in the Classes of the Messengers have heard them plead and plead and plead with mankind to refuse to criticize, judge, condemn, or have an opinion about another—a person, place, or condition—because as long as your attention is upon that quality, you are compelling it to act in your world. Oh, it is not a matter of persons, places, or conditions, but the Law that is acting; and if you set It into motion, you must experience the result. Since mankind has been doing this so powerfully, why can they not see it, reverse it, and now have the other much more naturally. I was about to say: “just as naturally,” but it is “more natural” because whatever the Activities of Life in its Reality are, the limited conditions are but human creation.

Therefore, My Beloved Ones, let the Fullness of that Power of your “Presence” take Command, release Its Mighty Light and Currents of Energy through you, going out about you to harmonize and oh! not only perfecting your world, but be such a Blessing to everyone whom you come in contact with. Then you will be the Child of Light moving among mankind spreading Its Radiance everywhere. I thank you.

• **DECREE** •

“Great Presence” of Life! You be the Commanding Presence under all circumstances and conditions!

“ALMIGHTY I AM”! (3)
