Mrs. G.W. Ballard: As the Beloved Virgo speaks Her Heart to us, we ask our own “Mighty I AM Presence” to expand our own Heart’s Flame and continue to pour our Love and Gratitude to Her for everything that this world contains, which She has given for the Perfection of Life and the Fulfillment of the Great Divine Plan of that Miracle Love of Eternity that forever brings Happiness to all.

## BELOVED VIRGO

Beloved Ones of Light, I wish to reveal to you tonight something that is within My Heart; and I trust your Heart and My Heart—your Hearts and Our Hearts—become One now in the great Realization of what the Cosmic Law requires in assisting the Earth to be free, and in pouring forth the Great Sacred Fire from the Central Sun that purifies, transforms, transmutes, illumines, and raises all into the Perfection that should long ago have blessed the Earth with Its Happiness and Its Glory. I wish you to understand tonight that in regard to the substance that the Great Law of Life provides to produce manifestation, your obligation is always to *demand whatever Power of the Sacred Fire is necessary to purify it, to keep it purified, and to command that all substance shall forever produce beauty and Perfection that glorifies the Creator of that substance and glorifies all the Universe with the greater happiness.*

Throughout the ages, from time to time, the Great Cosmic Beings who govern the Destiny of this Earth have drawn the Activities of the Sacred Fire in and through the physical structure of Earth in order to consume the discord that has been generated by mankind, and especially through the wars that have been kept alive for centuries. That energy, constantly returning upon mankind, has ever condensed the discord into more and more destructive action, all of which becomes a stress upon the physical structure of the Earth itself. And therefore you who are the Beloved of the Mighty Saint Germain, you who are His Family of Purity and Freedom and Love to Life, are My Friends also. And in considering the gigantic Task which is His in the cleansing of the Earth, We all offer Our Love

to Him to help in the Purifying Process throughout the Powers of Nature and the very structure of Earth itself.

Now in doing this, in the Love which We pour forth and the Call for the Sacred Fire—in that Purifying Activity which is ever inherent within that, as It passes through the physical structure of the Earth, It not only purifies that substance and removes the vibratory action of that which is destructive, but It increases and raises the innate Substance of Light, which is the Pure, Electronic Light Substance within the structure of Earth. It increases its vibratory action and raises it to the place where it becomes self-luminous. Now that is in reference to what you speak of as the physical ground of the world.

In regard to your own physical bodies, a similar thing takes place. And therefore whatever purifying Power you call forth of the Sacred Fire to correct conditions within the body that sometimes distress you, you turn in the hour of distress and use your Violet Consuming Flame sometimes quite violently, do you not?—if the distress is great enough. It forces you to remember the Violet Consuming Flame. And so you set to work and you use It. And then when It has rendered Its Service to you and removed the discord, you promptly turn your attention to the outer world and forget It until the next experience of distress forces you to use It again.

Now I think that is the suffering way of learning what you could so easily learn through Love. If you love this Violet Consuming Flame enough, your very Love for It would draw It around you into action to do for you what Its Love can do, and which nothing but Its Love can do. And therefore when you *call forth and demand the Purification of the structure of Earth, the Powers of Nature, and the Beings of the Elements,*

you are removing much of that human creation that has so often destroyed the Gift which We want to bring into the outer use of mankind, which could so easily provide everything you would ever require in this world in creating and maintaining the magnificent Manifestations that must become an eternal part of this Earth, and which must be brought forth in Beauty and Perfection and sustained Action to glorify the planet itself and the Great Beings whose Life has given it to the Universe.

You see, it is the same thing with a System of Worlds that it is with the individual. Unless a thing lives in your world by your Life and your Love, it does not exist for you. And so unless somebody gives the Love from the Great Central Sun by Conscious Command to the physical structure of Earth and to the Beings of Nature—unless that is drawn by those who have been partly the cause of the discord imposed upon the substance of the Earth, unless It is drawn, then It does not act. And since those who have had experiences in the shadows will—of their own Free Will through Love—*call this greater Love into the physical structure of Earth to help remove mankind's impurities*, then unless you will do it, the Earth cannot give you the blessings which it otherwise would.

You see, there are so many blessings within the actual physical structure of the Earth itself which could give to you the Beauty, the Perfection, the Ever-expanding Manifestations of Our Love that would one day make you a Creator of a System of Worlds. And so it is part of your experience life in this world to help purify the substance of the Earth and feel your Oneness with its Life, that it may give you the Perfection and its blessings to help you glorify the part of the Earth wherever you abide, and glorify the

System to which the Earth belongs before you Ascend. Do I make Myself clear? (*applause*) Thank you, Precious Ones.

Now I want to show you something. Your love and blessing to the actual physical ground you tread upon and your Demand for Its Purification will release that substance from its discordant reaction to you and from the creation of discord in the outer world. And then that substance, purified, can bring to you its blessings and its beauty; and as your Love has gone to it to purify it and set it free and raise it into its Divine Service of manifestation, that love which you have given to purify and free the Earth will come back to you to glorify you with its gifts and its beauty and its greater Perfection and sustaining Power. If mankind understood what Strength and Energy and Purity they could draw from the Powers of Nature—the physical ground itself—just by their Calls to the Great Central Sun for the Release of Its Fiery Love that purifies that Earth, that it might have removed from it the discord and impurity imposed by mankind.

As We enter into the Permanent Golden Age and the outer world is brought into greater Perfection, you will see this take place in many, many things that you call the Powers of Nature and which you call the physical structure of Earth. Those of you who will do this—I'm going to say for Me and for the beings who come under My Direction—who will do this for the structure of the Earth will begin to experience what Love can do for you from beings who are created to do God's Will, and who have been bound by mankind's discord to do that which they do not want to do. The Beings of the Earth Element will love you and bring to you such gifts, such blessings, such happiness, such beauty as you have never yet beheld with your physical sight; for they are not only the guardians, but they are

the creators of certain magnificent manifestations deeper within the crust of the Earth where mankind does not go.

So I am pleading for My Children tonight, My Children of the Earth Element, My Children who have been weighted down for centuries with mankind's discord. And when I can come and speak My Heart to you and ask for your love to My Children, I assure you, My Love and theirs will come back to you with Blessings this world has never seen. (*applause—audience rising*) Thank you, Precious Ones. Won't you be seated, please, and just remain so.

As the Earth structure itself becomes purified by your *Calls for the Love from the Heart of Creation to render that Service to the beings of Life that are bound within that discord*, as the Earth becomes more luminous, you will see within that Light Beauty that you never knew was there; for Light contains within It an Universe of Beauty—Perfection of Manifestation—of which mankind are almost totally unaware. They have seen some few things within that Light; and I am speaking of the substance of Light, the electronic substance of which the Earth is composed. Within that is a realm almost completely untouched and unknown by mankind. But when Purity returns to the structure of the Earth, then as it enters in the stage of self-luminosity again, the Light of the Love which created that substance will ever reveal to you the beauties of the Universe yet undiscovered by mankind.

So if you will *call for the Heart, that Fiery Heart of the Purifying Love from the Great Central Sun, to send the Blessing of Its Release to the Beings of the Earth Element*, many surprises will come to you from channels that you think you know and understand but which in reality have been closed doors until you see what is within the Heart of Love—because these Beings of the Earth Element who are

My Children obey My Love and create the beauty I want mankind to have. And so within the Love of those beings is happiness and blessing and gifts that would delight you beyond description and lift you beyond every limitation of this world.

You scarcely realize what it means, My Dear Ones, to make your life the Life of this Fiery Heart of Love from the Heart of Creation, the Miracle Love that produces the Beauty and Perfection of all. And so when you begin to use this to just bless and purify everything you contact, just as a matter of your return to Life of these greater Blessings that the Great Ones have given you, you will find as you go forward what the world calls the “Miracle Powers” of your own Life Stream coming into your outer use to do things for you almost instantly, as you make your world and your daily activity a continual Outpouring of that Fiery Heart of the Miracle Love from the Great Central Sun that enters into the structure of Earth, enters into all things, and commands the Perfection that Love holds to make this world that which glorifies the Beings in the Great Central Sun.

I want you to feel your full power and authority and ability to keep *calling this Fiery Heart of God’s Miracle Love into everybody and everything, every condition—the ground you tread upon—anything and everything that you contact*, until you give It the release through yourselves, of Its Cosmic Power and Action to raise wherever you pass by that substance to the point where one day it becomes self-luminous. You cannot give this Fiery Love from the Great Central Sun to the so-called inanimate things of this world without that Love coming back to bless you with the good that is in those so-called inanimate things. You cannot *send this great Fiery Love from the Heart of Creation into all the*

*things of this world* without having the Hand of God bring back to you the things you have blessed. And those things will give you the best that is in them.

And I tell you, when you leave this world to come into Ours, when you want to cut the magnetic pull of Earth, then Love must have come forth to bring that Essence from the Great Central Sun that makes you Master over everything. And as you love that “Great Presence” and as you *call the Great Central Sun’s Love into this world to purify it and set its beings free*, Our greater Love comes to you, truly; but the very beings that you set free will pour back to you such Love and Gratitude for the Freedom that you have given that your Blessings will be Boundless, Invincible, and Eternal. My beings have many, many gifts to bring that are to become the Eternal Perfection of this world; for We have stored in the recesses of the Earth such magnificent creations that have been created and reserved and protected and held for use in that time when hatred has been removed by the Command of the Comic Law, and by those Activities of the Sacred Fire that come always to purify and set free.

Mankind is not bound in the discord of the outer unless they want to be. Love is ever ready to set them free. The Love of your “Blessed I AM Presence,” the Love of the Ascended Host, the Love of the Angelic Host, the Cosmic Beings, the Love of the Great Central Sun, the Love of Mighty Helios, the Love in all Life that is greater than your Life is ready to give you of Itself to set you free. And so you whose Life is greater than that of My Children can render the Service of purifying the structure of the Earth and giving them Freedom by your own love and your use of the Love from the Great Central Sun that comes to Earth to fulfill the Great Divine Plan of Eternal Illumination.

And then as your greater Life gives freedom to them, all Life that is greater than you will give freedom to you, and Love will have fulfilled the Law. Oh, the Law of Perfect Manifestation is the Law of that Love! You cannot change It, you cannot break It. Mankind break themselves by not using It as was originally intended. And I think not too far in the future the Mighty Neptune is going to plead for His beings, too. (*applause*) Thank you, Precious Ones.

Do you know how We feel to Our beings? Do you know how you feel to a beautiful garden in which you have planted rare flowers and have given them much attention over a period of years?—and then they've grown to Beauty and Perfection and given back to you their blessing for your love and assistance to them. Do you know how fond you are of your beautiful flowers? Do you know how much you love sometimes your beautiful jewels? Well, We love Our Children the same way. And the Beings of the Earth Element are, after all, the flowers in My Garden of Life; and I am pleading with you for the Love that helps to beautify My Garden, helps to free My Children from that which I did not impose on them. I did not give to them the limitations or the distress of mankind's impurity.

And so since you are awake and much of mankind is not awake, it is to those who have awakened that We call, that you may use this greater Love from the Central Sun, and *by that Sacred Fire send forth by Conscious Command your Love to set free the beings that have served you since your first embodiment on this Earth.* The very bodies you abide within tonight contain within them the Beings of the Four Elements, and they have served you well. And as the Beloved Godfré said, "You know, you wear them out from friction with inside, and the world wears them out with

friction from outside; and pretty soon they give way.” The poor body doesn’t get much chance to express its Beauty and Perfection unless Love takes Command of Its Own. So if you are willing to help cleanse the Beings of the Earth, I assure you, I am willing and anxious and ready always to flood you with the Blessing that the Earth Element forever offers in the Service of Love, until its Beauty is luminous and forever in control of the Manifestation of this world. *(applause)* Thank you, Precious Ones.

When you *call forth for the Fiery Love from the Great Central Sun to blaze into the structure of Earth and into all the Beings of the Earth’s Element, and compel the Purification by the Fiery Love from the Heart of Creation*, then it is as if you brought sunshine into a darkened room and made the air fresh and luminous, and you could see where you wanted to go. And in that room were magnificent gifts awaiting an opportunity to bless you.

So there is no substitute, My Dear Ones, for the Understanding of this “Mighty Presence” of the “I AM,” Its Violet Flame, and Its Great Power and Authority—the Great Command to free this Earth from that which mankind has imposed upon it. There is no substitute for the Understanding of the “Mighty I AM Presence,” for the use of the Violet Flame, for the Power of your own Decrees to compel the release of that which has been bound by human discord. And love and gratitude to the things of this world for the blessing they have given you will so reestablish the balance in your own world that more and more things of greater and greater beauty will automatically seek you out to be blessed by the Love and the Gratitude that has set you free.

People do not understand how wonderfully inanimate things respond to a blessing. You might think they are

inanimate, and yet they are not. They are Life, and they are energy solidified, so to speak. And in the service which My Beings of the Earth Element are to render to mankind in the future, the Purification must come in the structure of Earth and in the atmosphere of Earth before they can fulfill the Divine Plan of their Destiny. And your Destiny and theirs are interlocked, because the Beings of the Earth Element were the ones that built your Etheric Body before your own Higher Mental Body sent forth the Flame of Its own Heart to make the individual “you” come into being.

The Beings—the Etheric Body is composed of the finest substance of the physical Earth, as you call it. And those bodies were built by the Beings of the Earth Element. They gathered the Points of Light, and held them together by Love, and molded the form into the Design the Higher Mental Body sent forth, and offered that to the Higher Mental Body when it was complete. And so you are more part of the Earth than you realize. But that substance, being the finest of the Earth Element, is still held imprisoned in discordant qualities until it is purified and allowed to return to the Luminosity which it first contained. So when you begin to *call the Fiery Love from the Great Central Sun to bless and bless and bless and purify, purify, purify all the Beings of the Element of the Earth*, I tell you, Precious Ones, you cannot call that Blessing to that life without having that same Purification take place within yourselves. You cannot give without receiving. You cannot bless without being blessed; and when you use the Great Central Sun’s Fiery Love to set those blessed beings free, such Happiness will be yours, such Blessings of this world as shall make mankind speechless at the manifestations that will be yours and will be brought to you to help fulfill the Divine Plan of building in this world the Beauty of Eternity.

So just go forward and enjoy the use of that Great Fiery Love from the Heart of the Central Sun which you *command to come into physical conditions and purify, purify, purify the Element of Earth and the beings who dwell within it.* And as you give them release, their joy will be boundless, and their love to you will offer you always their gifts. They will seek you like butterflies, because they will love to abide in the atmosphere of your feeling of the Love from the Central Sun and your willingness to give them release. And it is your Freedom quite as well as theirs when you offer this to Life; for Life will bring it back to you with Blessings a thousandfold increased, and the Glory of God goes on ever expanding all that is within the Heart of Creation until only the Happiness of Eternal Beauty and Eternal Perfection ever comes into Manifestation in this world or any other. May you go forward and use, use, use the Fiery Heart of the Central Sun's Great Miracle Love. Draw It to Earth, command Its Blessings to set all free; and see for yourselves what it means to fulfill My Request tonight.

So may My beings bless you; and as you love them and bless them and set them free, I will show you what My Love can do for you. May We all go forward held in the Arms of that Love from the Heart of Creation that protects, illumines, raises and perfects, and forever keeps happy all of Its own Creation. Such is the Joy that is ahead of you. And then Freedom shall know Its Own. May My Love ever abide with you and give you all the Blessings that the Earth Element contains, and will ever unfold to carry you forward to Freedom, to Victory, to Illumination, and to the Final Attainment of your Ascension as your Heart desires, because Love has become your Scepter of Power and your Pathway of Life and Light and Freedom in the Love of the Sacred Fire.

I enfold you in a Mantle of Its Eternal Power and Almighty Authority to go forth and bless you to Eternal Freedom.

Thank you and good night.

Mrs. G.W. Ballard: Thank You, Precious Virgo, for Your Love tonight. May we never forget that which your Heart has asked us to do. May our Love and Blessing and Obedience prove our Gratitude for Your Love forever.
