

GEMS OF LIGHT

Beloved Polaris

The Love from the Celestial Pole of your heavens—which the Great Sun Polaris is—is the Supply of God's Life and the Perfection to all that you can see in the heavens around you. It is that Love of Life that has created the Universe which you observe. And therefore if you will let It come in and through you, It will create the same Perfection and Balance here as It does there; and Its Law will hold Command where chaos heretofore has seemed to be.

So when you think of Me and understand how easily you can hold the picture of that Violet Golden Flame passing from the feet up, through the body, and up to the Higher Mental Body—and hold It again and again; and then ask for the Miracle Magnetic Love from Polaris to fill you and your world with the Miracles that forever hold your world victorious in the Happiness of God's own Heart, for you have then become the Miracle Command to Life that forever compels Perfection into outer action. And everything around you will pour It back to you. As you send your Love to Me, will I remind you that Miracles are your world's natural activity, and that your duty when your world becomes filled with Them, is to expand Them, that they may fill the world around you until it, too, becomes the Sun of Happiness to all the Universe that is Eternal.
