

GEMS OF LIGHT

Beloved Saint Germain

The Sunshine Substance from Our Octave is a Condensation, Precious Ones, of the Element of Gold. Now "I AM" not saying this for any exploitation or anything of the sort; but It is a powerful Purifying Substance. And when It condenses to the point where It sparkles upon your clothing, the Radiation penetrates everything in and around you; and you really become a Mighty Power of the Peace-producing and the Peace-commanding Presence. That will keep you so at ease within yourselves, you will feel as if it were impossible for anybody to become disturbed; and that very feeling touching the emotional bodies of others will make them feel the same way.
