

Talk

Mrs. G.W. Ballard

September 18, 1966

I just give this to you today because of the terrific damage that television has done to the eyesight of the general public who watch it. People who take time enough out to watch television and see what is on those screens—realize that you are photographing that right into the brain cells of your own body, your own head. People ought to wake up and think about this thing. They ought to do something to clear out their own consciousness if they're ever going to be free from the worry and the discord and the misconcepts of the human consciousness of the people of this world.

When people lose their sight, they are absolutely helpless. Somebody else has to take care of that body. They are wholly dependent on someone else.

Now, all this hairdo stuff that comes down over the eyes and the forehead is a deliberate, intentional way to create blindness. So, since the Sevenfold Flame of the Seven Mighty Elohim is anchored within the brain structure, the forehead

should be kept clear. Then if you use the Luminous Presence of Beloved Jesus in His Heart Flame or even with the Cross of Blue Lightning behind It, you can establish a protection to your mind so that no destructive force can enter or dominate you—and the same thing over the solar plexus, and the same thing down the back over the spleen, just as if you stood in front of a Blazing Cross of Blue Flame within which is the Luminous Presence of any Ascended Master.

I give it to you for your blessing and your protection if you care to use it. I've never had once that I've ever used that, that I didn't get the fulfillment of my Call and the protection of that which is constructive.

Now, when we enter into this, "I Stand, Face and Conquer by the Ascended Jesus Christ Heart Flame," let us pour to Him everything. And we ask Him at this time to seal us within His Great Cosmic Sacred Fire Presence of His own Heart's Flame and make us His Love to life no matter where we go—because wherever His Love goes, everything human is dissolved and consumed, and the Perfection of Love takes its place for Eternity.

This is our opportunity. We can gain our mastery. We can give unlimited help to others, and we can have Miracles without limit. If He had the Power before His Ascension to still the waves, He certainly hasn't lost any of His Power after two thousand years of the Ascension. You know how many statues and pictures there are of Him on the Earth, and mankind's attention upon them has called to Him for blessing and healing. He has done uncountable millions of answers to the people's Call. He will still answer because He said, when He was lifted up He would draw all mankind unto Himself.
