Mrs. G.W. Ballard

May 30, 1961

*Concerning the week prior to Easter Sunday,
Beloved Astrea says:*

I would deeply appreciate, this coming week, your Calls to Myself and the Beloved Master Jesus and to your Beloved Oromasis, as well as all your other Precious Ones. This week is a week of Consuming Fire.

The Voice of the "I AM," 1980.4:14

Mrs. G.W. Ballard: We offer Beloved Mighty Astrea all the love, gratitude, and adoration of our Hearts—and the Great Being who comes with Him and those Legions of Cosmic Christ Blue Lightning Purity that have consumed the whole hypnotic creation of mankind all through the centuries, that which has enslaved mankind to destructive forces. This takes the substance out of the brain structure and out of the emotional body.

Mighty Astrea with our Beloved Saint Germain and, of course, many others, are the ones that are taking the human creation away from those who are calling to God for help. Then all of us make our Calls for the freedom of all life, substance, energy, and consciousness from all evil, everywhere forever. Mighty Astrea is the one that cleanses the Earth's atmosphere and handles this through the mental and feeling world of the people. That includes insanity, crime, and everything else. So this Great Presence is entitled to anything and everything we can give or call, to give Him assistance to more quickly dispose of all mankind's frightful evil and that which is yet trying to manifest in the outer.

When war has gone on—century after century after century—killing, killing, killing, nothing is ever gained by that; and the evil is reaching the point of complete saturation. When that happens, then the Powers of Nature will no longer tolerate mankind's iniquity. Then Nature herself arises and buries her opponent.

Our duty, once we know this Law, is to demand the Invincible Purification that prevents evil; so it's our obligation and our business to make this effort. Once we understand this Law, it becomes our duty to use everything we are and have forever.

As our Beloved Frederick plays to Mighty Astrea, we ask our "Mighty I AM Presence" to pour forth through us whatever will help Him the most to annihilate and prevent all human creation, everywhere forever, and take out of life all selfishness. Then to our Beloved Saint Germain, with all the love and gratitude and devotion of Eternity, in unconditional surrender and obedience we offer Him everything. We ask our "Mighty I AM Presence" to do through us that which It knows He needs the most, and make us what It knows we need to be here, to blaze the Victory that compels evil to cease to be.
