

# GEMS OF LIGHT

## **Beloved Mighty Victory**

I want to enter in with you today to a Cosmic Use of certain Powers that are necessary for you to command to be released into the physical octave to assist Us in both protecting, sustaining, and expanding constructive activities that should be carried forward into the new age.

It is quite as important, My Loved Ones, to call forth Our Flame of Victory to sustain and protect constructive activities that others have brought into existence, as well as yourselves. That is quite as much your duty to the physical octave as it is Our Duty to answer you with Our Power which compels your Victory and, therefore, your Freedom from the limitations of this world.

I want you to feel in the great use of the Powers that come under Our Direction that the door is open at all times from Our side of Life. There is not once that We would not release to you the Fulfillment of your Calls, provided you fulfill the requirements of the Cosmic Law from your octave; but you, through your attention, must open the door from your side of Life. And then in the use of your own Authority to command and compel Perfection into action, you reach up, as it were, and take

Our Hand; and then that which We have the Power to give enters into your world to release you and the rest of Life from the human.

Now in contacting certain conditions of the outer world, especially those concerned with business and governmental activities and the channels of supply, I would request you today—wherever you see vicious conditions being imposed upon the people of the Nation or upon your activities that ought to be left free to produce Perfection for all—that you demand in the Name of the “Mighty I AM Presence” and that of any Ascended Master, or all of Them, whom you choose to call to, you demand that all substance that either limits or attempts to deceive mankind within your Nation be compelled back into the brain and body of the sinister force, with your regular Command to compel it to annihilate itself and the whole psychic stratum of Earth. Because just as the wind blows clouds from one part of the sky to another and that drives sometimes with terrific force, so can you through this Call have the release of a Cosmic Action or a Cosmic Power that drives all substance, mark you, that either limits or deceives mankind in their fulfillment of the Divine Plan back into the brain and body of the sinister force. And then compel it to annihilate itself and the whole psychic stratum of Earth.

Now, of course, any substance that would limit or deceive mankind is psychic substance. But wherever you see it acting in special activities, then demand that substance be lifted from the mental and feeling world of mankind and from the physical atmosphere of Earth,

and be compelled back in the brain and body of the sinister force with your Command that it annihilate or consume itself.

You will find in regard to this, were you suddenly to give that Command where disturbance is brought about through strikes and so forth, were you to suddenly rip that substance off of the disturbing activities, you would see their plans collapse even before they get started, or at least shortly after, because the sinister force uses that substance to shut off the connection of the outer intellectual consciousness of mankind and their feeling from reaching up to God as the mass of mankind know it. In other words, it's just as if someone came and threw heavy material of some kind over the physical body to smother it. And that is exactly the action that that psychic substance has upon business, upon constructive activities within the Nation, and upon the activities within your government that would give the people Divine Justice and protect their God-given Rights of Freedom. This is just as tangible a blanket of substance as any physical blanket you would put over your body.

Demand, in the Name of the "Mighty I AM Presence" and your Nation, the Freedom of all Life within your borders from everything that does not fulfill the Divine Plan the Ascended Masters' Way.
