Q. What is the regular visualization that we use at the beginning of Class?

A. Well, you have heard me say it again and again and again, unless you're an absolutely new Student. You always hear me say, "Hold the picture of the Violet Consuming Flame, the Heart Center of Pink, the outer Radiance of Blue, again held within the Unfed Flame and the Power of the "Three times Three." That's just as if you were held within three Unfed Flames, again held within the Sevenfold Flame of the Seven Mighty Elohim—all held within the Flame, the Substance, the Miracles, the Victories, the Power, and the Perfection without limit of

the Secret Love Star, filling and surrounding the platform. Then focus It individually around every person, place, condition, and thing under this Radiation, throughout America and the World. And over North, South, and Central America, see the three Hearts of Violet Flame going deep into the structure of Earth, high into the atmosphere of Earth, the Wall of steely White Light surrounding the three Americas, forming a dome-like covering in the atmosphere above—the Wall of Blue Flame for a thousand-mile radius in every direction. Outside of the Wall of Light surrounding the three Americas, see the water of the other landed surface and atmosphere of Earth become the Violet Consuming Flame also; and as that Cosmic Light descends to meet that from the Great Central Sun, see go forth those Great Light Rays and Activities of the Sacred Fire—and especially the Violet Consuming Flame—into every destructive activity on the Earth, in the Earth, and in the atmosphere of Earth, and compel their annihilation from the Universe forever!
